CRACKER THROWN IN WINDOW BURNS GIRL

EXPLOSIVE HITS BED AND FOOT IS BURNED

LAD'S HAND IS INJURED

Boy Holds "Salute" Too Long and it Explodes in His Hand; Accidents Reported are Few

Accidents from the careless use of fireworks, reported up to noon today were comparatively few.

Cracker in Bed Burns Girl
As the result of a firecracker being thrown through the window at the home of A. M. Heyerdahl, corner of Eighth and Vine streets, at 4 o'clock this morning, Miss Margaret Heyerdahl has a badly burned foot and her little friend, Ruth Kelley, received a bad scare. Harold Betzel, like all young patriots, arose with the dawn this morning to start his celebration of the Fourth. He was busy lighting his crackers and tossing them into the air to explode. Accidentally one of them went through a window in the Heyerdahl house and fell on the bed where the little tots were sleeping. The foot of the Heyerdahl girl was badly burned by the explosion but other than a shock the Kelley girl was uninjured. The clothing caught fire but this was extinguished before any damage was done.

"Salute" Injures Hand

As a result of holding a lighted "salute" in his hand, Rupert Ruedig is celebrating his Fourth of July with four fingers out of joint. Young Ruedig, together with some of his friends, were among the premature celebrators on Main street last evening. As street cars passed they would toss them under, the noise being increased. He was standing along the car tracks and as a car came along lighted one of the crackers. He drew his hand back and was waiting for an opportune time to toss it under when it exploded. Four fingers on his right hand were blown out of joint and his hand was badly lacerated. His injuries will not cripple his hand permanently, however.

NEW YORK BOSSES AVOID EACH OTHER

DENVER, Colo., July 4.—Bringing with them the Gaynor vice presidential boom, exhorting Judge Parker for his alleged unauthorized resolution eulogizing Cleveland, and shouting that McCarron is more than ever a member of the down and out club, Charles F. Murphy and Lewis Nixon, two members of the New York "big four," have reached here. On the same train were Judge Parker, nominal head of the "big four," who kept aloof from Judge Murphy after learning of the displeasure of the Tammany boss at his daring to offer even a suggestion without consulting with him; William F. Sheehan, chairman of the democratic executive committee in the disastrous Parker campaign four years ago, and McCarron himself.

SEND SHERIFF INFERNAL MACHINE

HOUGHTON, Mich., July 4.—An attempt was made to assassinate Sheriff August Beck, a deadly infernal machine being sent to him by express. Turnkey William Anderson started to open the box, but the sheriff, suspicious at its appearance and warned by frequent threats made by saloonmen and gamblers whom he has practically forced out of business within the last few months by his pressure on the "lid," ordered him to desist.

This probably saved the sheriff and his family and the courthouse from being blown to atoms, as there were five sticks of dynamite with a battery attachment in the box.

CALL DEPARTMENT TO VIEW SMOKE

About 10 o'clock this morning department No. 1 was called to the Dr. Beck flats on Main street, between Sixth and Seventh streets, where an alarm had been turned in by a passer by who saw a quantity of smoke coming from the window in the second story. The department made a quick run to the scene and found that a few boys had been firing off crackers from the window, and caused the smoke.

FORMER RESIDENT DIES IN CALIFORNIA

Mrs. John Travis, a former resident of this city, is dead at her home in Los Angeles, Cal., according to a telegram received by her sister, Mrs. William Collins, of this city. The deceased was 48 years of age and left La Crosse about six years ago. The remains will be brought to La Crosse for burial and will arrive Tuesday.

PETER J. SCHULD SUCCEUMS TODAY

WELL KNOWN GROCER DIES AFTER LONG ILLNESS

LA CROSSE RESIDENT 54 YRS.

Pioneer Grocer Came to La Crosse at Early Age and Has Conducted Business for 35 Years

Peter J. Schuld, 818 Pine street, an old settler in La Crosse and one of the earliest grocers, died this morning, aged 58 years, after three months' illness with cancer of the stomach. Mr. Schuld was operated upon about two months ago, but the affection had so far developed that the operation afforded no relief.

Deceased was born in Germany and coming to this country as a child lived with his parents for one year at Dubuque. They moved to La Crosse and he has resided here 54 years.

Thirty-five years ago Mr. Schuld established the grocery business at 329 North Ninth street where he has been in business ever since.

Left behind are a widow, six sons and two daughters. They are Robert P. of Duluth, Victor C. of Chicago, Marcellus J., Bernard B., William J., Edwin M., Dorothea G. and Gertrude A. of La Crosse. He also leaves two sisters, Mrs. Henry F. Mentis and Mrs. John Grams of La Crosse.

The funeral will be held Tuesday morning at 9 o'clock at St. Joseph's cathedral.

CAMPAIGN BY GOV. AGAINST LOTTERIES

WASHINGTON, D. C., July 4.—Lottery and prize contest promoters are running to cover under a sharp campaign now being conducted against them by the postoffice department. It is estimated that the close scrutiny now exercised over all publications has resulted in the exclusion from the second-class privilege of periodicals aggregating 25,000,000 circulation. These were all cheap publications, bulging with "free" offers and prize contests akin to lotteries.

The department is also demanding stricter compliance with the second-class rules in regard to requiring paid-in-advance subscriptions before admitting to entry.

In another branch of the department, postoffice inspectors are busy watching advertising fakirs. The assistant attorney general's office is the mecca of all newspaper men in the capital just now, with the summer dearth of news, because there is hardly a day that several fraud orders do not appear.

Among all the varieties of fakes uncovered by this branch of the service, by far the most plentiful is the astrological, the psychological, clairvoyant, or seeress fraud. These are the folk who advertise a complete individual life-reading "from the stars" for a small sum—claiming an individual horoscope, etc. What the department objects to is that these fakirs have horoscopes for the twelve months all prepared in advance, and dish them out according to the birth date of the applicant.

Also, in a good many cases, the same string of generalities about temperament, love affairs, and so on, appears in each horoscope.

Sometimes the inspectors have also discovered that the learned advertiser doesn't know an astrological from a Plymouth rock rooster.

SPECKELS TAKES RAP AT BRYAN

SAN FRANCISCO, July 4.—The Call, the paper owned by the Speckels interests, publishes today a facsimile letter signed by William F. Herron, chief counsel for the Southern Pacific, stating that during the nineties Bryan rode on a pass over the entire system of the Southern Pacific. The fact that in those years Bryan attacked the railroad interests gives rise to much speculation as to the cause of making the letter public at this time.

MCGREGOR IN GAME

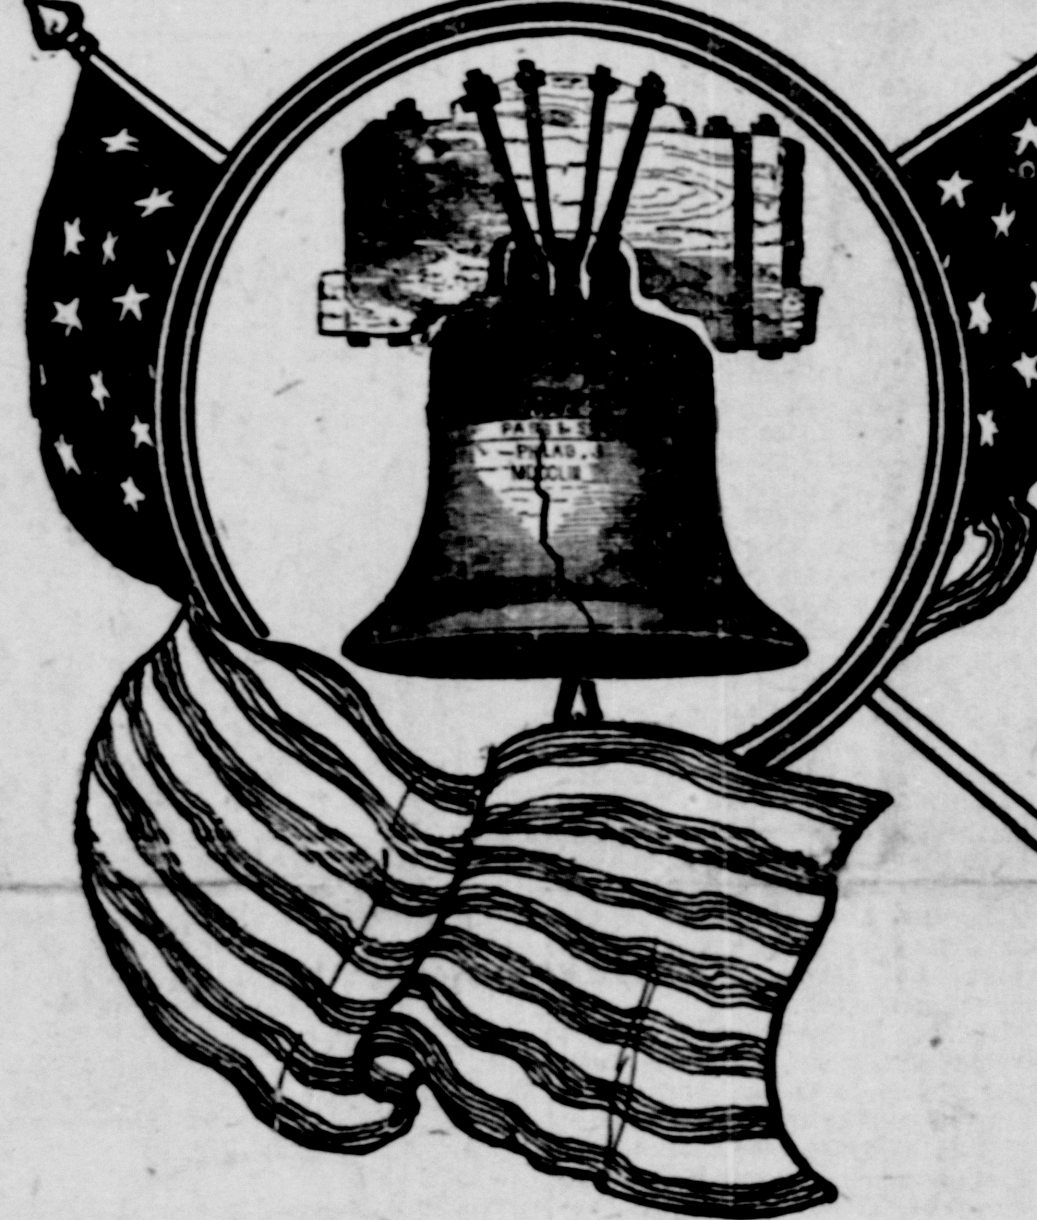

MADISON, Wis., July 4.—Duncan McGregor of Plattville was in conference with Gov. Davidson yesterday and it is said they discussed the prospect of Dr. McGregor entering the field as a candidate for the republican nomination for lieutenant governor, in place of William D. Connor, who has announced his withdrawal from active politics. After the conversation with the governor, Dr. McGregor said that he was not a candidate for the nomination, "not yet."

ENGINEER BURIED UNDER LOCOMOTIVE

WRECK ON MILWAUKEE BRANCH LINE AT WESTBY

COMBINATION HITS FREIGHT

Engine Leaves Track and Turns Over and Engineer Beattie and Fireman Steele are Chopped Free

Engineer Geo. B. Beattie, Fireman Will Steel of the train between Sparta and Viroqua were buried for forty-five minutes under their overturned engine and had to be chopped out, last evening, as the result of a collision between their train and a local freight at Westby. Neither were dangerously injured, but both were badly bruised and Engineer Beattie was hurt the more severely. Brakeman Ruffer Caery was also hurt.

The combination passenger and freight train was pulling into Westby on its way to Viroqua when the accident happened, at about 4:30 yesterday afternoon. In the collision the engine of the combination train was thrown completely across the tracks and turned over, burying the fireman and engineer under its bulk. Three box cars were also dragged off the tracks.

A wrecking crew was sent out and took the disabled train into Viroqua last night.

None of the passengers or other members of the train crew are reported injured.

BISHOP POTTER IS NEAR DEATH

COOPERSTOWN, N. Y., July 4.—Bishop Potter is still conscious, although he is apparently near death. During the day he was able to take a little nourishment, but he continues to grow weaker.

PERRIGO BALLOON DECLARED UNSAFE

"I WILL" CAN'T STAND THE GAS EXPANSION

BIG AERIAL RACES ARE ON

Weather Conditions at Chicago Are Favorable and Exciting Contest Is Anticipated

CHICAGO, July 4.—After final tests of safety, the ten balloons in the international long distance contest today prepared for their flight. The "I Will," C. H. Perrigo's entry, was pronounced hazardous and that aeronaut was notified it will be unsafe for him to attempt an ascent. His bag has a capacity of 75,000 cubic feet of gas, but experts say it is too thin to stand the pressure of expansion.

The day is ideal for balloon racing. The air is cold and will cause the gas to contract. The wind is from the northeast and is blowing strong. Rain clouds are in the east, but a local, and are not expected to reach the course of the races.

The Texas balloon, "Fielding, San Antonio," will be the first starter; the French entry second. The others in order are: "Columbia," "King Edward," "I Will," "United States," "Cincinnati," "America," "Illinois," "Chicago."

The latter is the largest balloon in existence. C. A. Coey, its owner, will sail his own entry.

SHIP GIFT CARLOAD OF ICE CREAM

A carload of ice cream was shipped by the Ice Cream and Butter company to Viroqua as a present to Third Regiment band at that place. The car left today for Freston where they will play the fast Preston team. The pitching for the Noxalls will be done by Konetchy and Nunstad.

BURGLARS STEAL LAUNCH EQUIPMENT

THIEVES TAKE VALUABLES FROM Y. M. C. A. BOAT

POLICE HAVE BEEN NOTIFIED

Motorboat Club Craft Visited During Night by Thieves and \$25 Reward is Posted Today

Sometime between 8 o'clock last evening and 8 o'clock this morning a thief or thieves entered the Holley boathouse, near the Carrell elevator, in which the Y. M. C. A. launch is kept by Mr. George Clark, and stole various articles from the equipment of the boat. The police have been notified of the theft and are working upon the case.

Among the articles stolen were the set of batteries, the spark coil, a large coil of rope, three wrenches, including an expensive combination wrench, and a launch which had been prepared for use on the river today. The coil was of the variety for a double cylinder engine, with which the Y. M. C. A. boat is equipped. Mr. Clark discovered the loss this morning upon entering the boathouse.

Reward is Offered.
The Y. M. C. A. launch, as well as the Holley boathouse is under the protection arrangement of the La Crosse Motorboat club and as a consequence a reward of \$25 is offered by that organization for evidence convicting the guilty parties. Notice of this reward is published in The Tribune today.

NOXALLS AT PRESTON.

The Noxalls baseball team of this city left today for Freston where they will play the fast Preston team. The pitching for the Noxalls will be done by Konetchy and Nunstad.

SHAH'S TROOPS GAINING CONTROL

SOLDIERS REFUSE TO RECOGNIZE TRUCE FLAGS

DEAD ESTIMATED AT 2,000

Some Reports Say the Dead Will Reach 4,000; Rigid Censorship on the News

ST. PETERSBURG, July 4.—A message from Tabriz today states the Shah's troops are rapidly overcoming the revolutionists and will soon be in control of the city. The fighting lasted throughout last night, the soldiers refusing to recognize the white flags raised in a number of places.

Reports of the number killed in the three days' engagement vary, but none is placed under 2,000, while some say the dead will reach 4,000. The legations are crowded with refugees. Censorship has been placed on all news.

MORNING GAME OFF

Rain interfered with the baseball game between the Colts and Green Bay this morning, the game having been declared off by the management. Pink Hawley will be in the box in the game this afternoon unless the weather man again interferes.

MARRIED LAST NIGHT

Thursday evening about half past six, Judge C. W. Hunt united in marriage at his office on Main street, Miss Florence Chase of this city and William J. Means of Preston. The bride is a daughter of Charles Chase while the groom is a farmer residing near Preston, Minnesota.

FOURTH DAWNS IN MIST AND RAIN

THIS DOES NOT DAMPER THE SMALL BOY

24 ARE DEAD AT DAWN

Viroqua and Onalaska Offer Big Festivals, While Racing and Baseball Is the Order at Home

CHICAGO, July 4.—When the fourth dawned today records kept here showed 24 had been killed, four were dying and 359 injured over the United States as the direct result of pre-fourth fireworks displays. Today's record here shows six injured before 9 o'clock.

Willie Lancaster, aged 9, left eye blinded by the explosion of a cannon cracker held in his hand.

Steffle Bestwin, aged 12, struck in hand by the explosion of a tin can filled with powder. Will lose fingers.

Robt. Brooks, aged 14, may lose eyesight as the result of the premature explosion of powder.

Chas. Gansen

In spite of mist and prospects of a rainy day the usual shooting of crackers took place this morning, beginning in the early hours of the morning. Many celebrations will take place today in the vicinity.

Harry Palmer has planned one which he expects will draw a good-sized crowd. It is to be held at the fair grounds this afternoon and a well arranged program will be pulled off. Racing will be the principal feature, horses, automobile and motorcycle races being among the events on the program.

At Viroqua.
Probably the largest celebration will take place at Viroqua. Stands have been put up in the streets and free vaudeville performances were given in the morning. At 10 o'clock a large parade was formed near the court house and after the parade speeches, including a talk by the secretary of state, will be in order. In the afternoon different track events will be pulled off, the principal one being a Roman hippodrome race. In the evening there will be the usual display of fireworks and dances.

At Onalaska.
Onalaska will also celebrate the Fourth. It will be the annual Woodmen's picnic, but the citizens of Onalaska have taken hold of it and offered many special attractions. The steamer La Crosse will make regular trips between La Crosse and Onalaska, this being the first time an excursion steamer has been run on the Black river.

Picnic Parties.

Many of the people of the city will take to the tall timber to get away from the racket. Picnic parties have been planned and if the weather permits French Island, Myrick park and Canterbury park will be the scenes of many outings.

The leading local attraction of the day will be the double header baseball game between La Crosse and Green Bay. The information that Pink Hawley is to be in the box for one of the games will undoubtedly prove a great drawing card, as many would like to see the old veteran pitch.

Police Busy.

"On the whole the people were very good about their fireworks last evening," said Chief John Weber this morning. "While we had to take a few to the station, as a rule they lived up to the orders of Mayor Anderson and we had very little trouble keeping peace and quietness on the eve of the Fourth."

A special squad of police were kept busy warning the owners of canes and other firearms to stop their use on the sidewalks.

A number of boys who think it cute to shoot revolvers around the streets and others who shot off sky rockets in the street and instead of directing them the way the inventor planned, were arrested and given lodging in the station, until the courts open Monday.

MINNESOTANS AT THE BRYAN HOME

LINCOLN, Neb., July 4.—T. O. O'Brien, of Minnesota, is in Lincoln; he does not concede Bryan will be nominated, if Johnson fails to receive the convention support. However, he declares, Minnesota Johnson enthusiasts will harbor no soreness, but will give Bryan their united support. "Johnson is the most alert, straight-forward, faithful democrat in the country today and if nominated he will be easily elected," said O'Brien. A. D. Evans, license inspector of Minneapolis, is with O'Brien. Evans is a red hot Bryan man. He says Minnesota is for Bryan, and that the Johnson boom is self-appointed and presumptuous, and that Bryan adherents in Minnesota have been shamefully underplayed.

DOCTOR'S ORDER WAS: 'CUTICURA'

For a Bad Case of Eczema on Child
—Suffered for Three Months—
Disease Reached a Fearful State
—Pain and Itching were Terrible.

CURED AFTER OTHER
PRESCRIPTIONS FAILED

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with an able physician for some time and was then advised by him to use the Cuticura Remedies which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment but do not know exactly how much was used to complete the cure. I can safely say that Cuticura did a lot for me. Miss Anabel Wilson, North Branch, Mich., Oct. 20, 1907."

ITCHING CURED With Cuticura Remedies in Three Days After Six Months of Suffering.

"I suffered fully six months. The trouble began on my arms in little red pimples and it was not long before it was all over my body, limbs, face, and hands. It was so bad that I could not rest night or day and during the six months I did not get a good night's sleep. I doctored for three or four months and spent at least twenty dollars trying to find a cure but none could be found. Then I saw the Cuticura Remedies advertised, and the next day I purchased some for seventy-five cents at the drug store. I used them and I was relieved of the itching in three days, and I have never had a sign of any skin disease since. The Cuticura Remedies are the only remedies to use for skin diseases, they have cured me and they will cure others in the same way. J. W. Bloom, R. R. Telegrapher, Holloway, Mich., Nov. 20 and Dec. 29, 1906."

Home runs, three baggers, two batters and singles, totaling eighteen gives an idea of the way the Colts went after Green Bay in the opening game yesterday afternoon. The slaughter was something indescribable. They started off like a whirlwind and did not let up all through the game. It was hit and run, and the way they hiked around the bases, two at a time, was not slow.

Green Bay was first at bat and started something they were unable to finish. Boyle sent the first ball over for two bases. Kernan then punched the first one over for a sacrifice. Dolan was not as successful, but Grodnick found a safety and sent Boyle across the plate. Stickney hit to Becker and in a mix up Grodnick went out attempting to score the second run.

La Crosse showed a little sympathy in the first inning. Safford went out Boyle to Dolan, and then with a succession of hits by Bond, Bues and Becker the score was tied and the locals quit. Everything would have been all right for "them present," at least, but Green Bay went ahead in the next inning. Putnam got a pass, was sacrificed to second and came home on a hit by Morrison and a wild throw by Graves. After that things began to come to La Crosse. The fateful inning follows: Graves was first up and hit to third but a fumble sent him to first. Harms arrived safe on an error by Dolan, and an infield hit by Flynn, a bad throw by Kernan let Graves sign at the plate. Safford struck out, and then Bond hit the ball squarely and Harms and Flynn came running across the plate. Bues got to first when they tried to catch Bond at second and failed. Becker awaited the ball for another hit scoring Bond and Duchien got a hot one, scoring Bues. Tracey proved to be a good waiter and the bases were filled. Graves sent a hot one to the infield and scored Becker. Flynn brought Duchien over the plate after Harms had struck out and assisted by an error by Dolan Safford hit, scoring Tracey and Graves. The massacre was finally stopped when Bond flew out to Putnam. The next inning they took a rest and while doing so Flynn tightened up and it was only occasionally that one of the Green Bay men landed at first. In the fourth inning they started things again.

Graves struck out, and Harms and Flynn batted hits. Safford appeared and sent the ball to the fence for three sacks, scoring Harms and Flynn. Bond was pegged in the ribs and Bues hit safe scoring Safford. Bond was caught at the plate. Becker was there for a two bagger, but on the next play Bues was sent across the plate. After that they took another rest until the sixth inning. In the sixth inning it was only a repetition of the previous work. Kernan was sent in to the rubber to relieve McCloskey, the Chicago artist, but it was the same old story. To tip things off in good shape Bond appeared at bat in the eighth inning and drove a hot one over the first sack and to the fence. Like a shot out of a gun he skirted the bases and did not stop until he had planted his name on the home plate.

DOPE BOX
Same team again today and tomorrow.
Baillies pitched in this morning's game.
Pink Hawley will be in the box this afternoon; game to be called at 4 o'clock.

On entering the park yesterday afternoon the first thing to catch the eye of the fans was a large sign near the score board with the following inscription: "Prohibition means closing Sunday ball parks, and abolishment of all Sunday amusement. Use your influence to quiet prohibition."

Umpire Connelly was so excited when Bond crossed the plate in the eighth inning after a pretty slide that he fell flat on his back.

In the sixth inning of the first game a "phony" thing occurred. Tracey hit a fast grounder and it hit Pitcher Kernan in the shins, bounding to first base in the hands of Dolan.

Second Game 4 to 0

The second game was hardly a repetition of the first encounter and it was with great difficulty that the fans ascertained that the same teams were playing. Reversal of form appears to fit the case, but it was not altogether due to that, as much as it was due to the pitching of Vance, who had things his own way and was given phenomenal support. He pitched winning ball and was there at all stages of the game. But three hits were found off his delivery, two being of the scratch variety while the third by pitcher Eberly netted three bases. Eberly's work in the box would have won in an ordinary game but he was not given the support that was noticeable during the reign of Flynn and when everything was over four Green Bayites had registered runs.

As in former years Green Bay started from the sound of the pistol. Boyle opened with a hit. Kernan attempted to sacrifice but Kernan was out at second and things had to be started over. Grodnick let the ball hit him and trotted to first, then Putnam hit safe and scored Kernan. Eberly then held them safe until the sixth inning. Dolan started off with a pass and after Eberly had struck out Grodnick he pegged Putnam and allowed Hammond to hit safe, scoring both Dolan and Putnam. In the next inning a hit by Boyle and Dolan resulted in another score, but the following two innings were in favor of Eberly.

In the fifth inning for La Crosse after Hastings, who had been sent in for Graves and Killian had struck out, Eberly hit a hard one to deep center and skirted three bases but on the next play Safford failed to connect squarely with the ball and was out at first, retiring the side. In the eighth inning phenomenal work on the part of Hammond saved La Crosse from scoring.

Eberly was hit by Vance and Bond connected squarely with the ball, sending Eberly to second and planting himself on the initial sack. Bues then hit a line drive over second base but Hammond by a wonderful run and stop caught Bond at second, retiring the side.

Putnam hurt his ankle in sliding to home in the sixth inning and was replaced by Stickney.

great work in the box, but the scoring during his work was due mostly to errors by his teammates.

Eberly was knocked down by getting a pitched ball in the head in the eighth inning of the last game. It stunned him for a minute but he resumed his work in the box for the last inning.

When Eberly was hit, Scarry made his first appearance on the diamond when he ran to Eberly's aid. What could be seen of him, he looks as though he might deliver the goods.

Remember The Saenger-
fest, La Crosse, Wis., July
23, 24, 25 and 26.

WE ARE SORRY, TOO.

The little noise on Main street
and its morning-after headache in-
spire more of charity than of resent-
ment—a good deal like the man who,
weeping mitigation, cringes for the
mercy of the court. When a person
or a thing, appreciating their short-
comings, apologizes for them, it is
not in the heart of the average man
to condemn them further, but rather
to offer what consolation he may.
The Tribune feels this sentiment of
charity and from the abundance of
splendid Denver convention news it
will receive every day it would be
glad to help out its apologetic con-
temporaries with a few "tips" on
what's going on, if it will be accept-
ed in the spirit of goodfellowship in
which it is offered.

But a charitable world does not
require that apologies be perpetual.
This world is a busy place and people
have troubles of their own. If a
newspaper realizes its inability to
send a man to the Denver convention
and frankly admitting it, apologizes,
that small part of the world which
chances to hear will, in passing, feel
an impulse of pity. But these same
busy people do not care to be fol-
lowed about through their business
pursuits, into their homes and upon
the streets with the same woe-laden
ed wall. Then it grows tiresome.

The Tribune can readily under-
stand how these papers feel because
they can't afford to send a man to
Denver, to publish illustrations of
the big convention, the McCutcheon
cartoons and the various other mag-
nificent features which will appear
daily in The Tribune, including the
splendid wire service of the
United Press, direct from convention
hall; and appreciating, The Tribune
regrets, too, from pure largeness of
heart, that its contemporaries have
been unable to make arrangements
for covering properly this most im-
portant national event.

But, as said before, continued
apologies will only serve to draw at-
tention to these shortcomings, and
we would advise the discomfited
papers to say no more about it and
the public will overlook and forget
it much sooner.

The Tribune quite naturally feels
proud of the superior manner in
which it covered the big Chicago con-
vention and it need not reassure its

readers that the monster democratic
meeting will be presented through its
columns in the same splendid style.
As the public knows, The Tribune
was the only paper in this section of
the state which paid full credit to
the part Wisconsin took in the repub-
lican convention. Matters of special
importance to Wisconsin, Minnesota,
Iowa and La Crosse will be given
the same special attention in The
Tribune's Denver reports.

WHY WOMEN WEEP.

The mystery of woman's ready
tears is solved. A feature writer in
the public prints has cracked the
nut, or chestnut, and the meat there-
of is good. Of course the writer was
a woman, else no credence could be
given to the solution, for no man
ever pretended to realize why women
weep, and how. Man's only knowl-
edge on the subject is that women
do weep as handily and as discom-
fortingly as a baby squalls.

The worst of it, we must let the
woman go on crying her eyes out to
her blessed heart's content, for it is
unfolded to us that her tears are a
substitute for something which she
may not have, and the alternative is
out of the question. Between a
weepy woman and a naughty woman,
give us of the fruitful lachrymal
glands. But enough! Here is the se-
cret of the feminine freshets:

"It may help the very new hus-
bands a little to know that when we
women weep it is because there is
nothing else that we can do to make
ourselves felt.

"Now a man can swear, not really
swear, but use some comforting little
word that always seems such a won-
derful relief to his hurt feelings. If
a woman were to say the simplest re-
flect word in her husband's vocabulary
the whole neighborhood would turn
against her.

"A man may kick the cat, gently.
A man can sometimes smoke
himself into a restful frame of mind.
Men can hide behind newspapers
and pretend to be reading, while they
recover their self-respect or get back
their pluck. The whole house will
be kept quiet for them, too. Who
ever lets a woman hide behind a
book or a paper?

"Who ever thinks that a woman
is important enough to be let alone?
There, that's just it!

"The first thing a wife knows she
isn't important.
"Everybody seems to forget that
she is a thinking, feeling blood and
bone individual. And when a woman
thinks that everybody has forgotten
that she is somebody—she cries.

"She cries not because she burned
the cookies, not because her new
hat is unbecoming, not because her
mother-in-law is coming, but because
it is the only thing she can do to
emphasize her personality.
"Men have a monopoly on all other
forms of making one's individuality
felt.

"Woman has just one way of call-
ing attention to her turbulent exist-
ence—she can cry."

A DEMOCRATIC VIEW

The tariff plank in the republican
platform, which not only calls for
protection to equalize the difference,
if there be any, in the cost of pro-
duction at home and abroad, but pledge
the republican party to give added
protection to "the profits" of the
tariff beneficiaries, is essentially a
Roosevelt-Taft idea—a "progressive"
bid for trust support.

There is no occasion for mystery
as to the origin of this "idea." It
did not come from the "reaction-
aries." It first appeared in the state
platform of the Ohio republican con-
vention that elected delegates to the
republican national convention. It
made its first appearance under Taft
auspices and it was placed in the na-
tional platform at his instance.

While the protective tariff has
been designed to enable its benefi-
ciaries to exact monopoly profits
from the public, never before has
the republican party had the hardi-
hood openly to declare that the pur-
pose of protection is to protect pro-
fits. Hypocritically it has professed
to have in view only the protection
of labor. Now it comes out openly
and says that its policy is to insure
a "reasonable profit" to the protect-
ed industries.

The declared policy of the repub-
lican party, then, is to tax the con-
suming public that the protected in-
terests may be sure of "reasonable
profits." Here we have class legisla-
tion and privilege with a vengeance.
By law compel one class of
citizens to pay more for the things
they consume than that another
class may make a monopoly profit.

And yet Theodore Roosevelt in ex-
pressing his satisfaction over Taft's
nomination congratulated the coun-
try that a man had been named that
resolutely is opposed to privilege!—

PARCEL POST.

The deficiency in the postal reve-
nues for the present year will be
about \$14,000,000, almost double the
deficiency for last year.

The postoffice should have suffi-
cient revenues to reduce letter post-
age to 1 cent. This could readily
be done did not the government cater
to the express companies instead of
to its own profits.

The rural free mail delivery will
cost this year \$25,000,000. This is
operated at a great loss because
there is no parcel post. A parcel
post would make the rural delivery
pay. It would cheapen the farmers'
purchases and increase enormously
the volume of general business.

But there is no parcel post be-
cause the express companies are op-
posed to it and Senator Platt is the
president of an express company.—

MATINEE TODAY
Alphonse Daudet's great play,
"Sapho," made famous in New York
by Olga Nethersole and familiar to
playgoers in the larger cities only,
will be presented by the Van Dyke &
Eaton company today, matinee and
night. The costumes for the first
act, which represent the French ball-
room, Paris, are said to be the rich-
est creations of velvet and silks; such
a play is seldom seen at cheap prices.
"Amateurs" prize contest will take
place after the last act of the drama
tonight.

"The Little Christ" will be the
bill on Sunday matinee and night.
On Monday night ladies will be ad-
mitted free, under the usual condi-
tions.

A LITTLE MORE THAN YOUR IN-
COME.

A young man being asked how
much it cost to live in New York
city, replied: "A little more than
your income, whatever that is." A
young city clergyman on his first
round of parish calls found a family
on the verge of starvation. The man
had been out of work for months.
He had a wife and five children, the
youngest a baby. They had just eat-
en the last bit of food in the house.
The young clergyman gave them \$5
and collected for them twenty more
before the day was out. A few days
later he called to see about getting
work for the man. They were again
on the point of starving. With the
\$25 the woman had bought a fine
new baby carriage, some coffee and
sugar. When the clergyman expostu-
lated she indignantly denied extrava-
gance. The children had broken the
old carriage, and it was necessary
the baby should have a dais
wheeler. As for the coffee it was the
first they had had in weeks. They
were accustomed to it and needed it.
—Appleton's Magazine.

"PUBLIC OFFICE IS A PUBLIC
TRUST."

"Public office is a public trust"
is almost universally supposed to
have been uttered by Mr. Cleveland.
It was unquestionably the guiding
principle of his conduct, but he was
not much given to epigram, though
he coined a few memorable expres-
sions. "Dan" Lamont confessed that
the printer of the campaign biography
of Mr. Cleveland complained that
the cover didn't look well; it needed
some catchy line across the top, and
thereupon Daniel evolved the fam-
ous phrase which gave the keynote
of Mr. Cleveland's public career.—
Philadelphia Record.

AS TO "SECOND SONS."

Now you can see what it is to be
a younger son. The whole world
was called upon to attend the ac-
coucheement of the oldest son of
King Alfonso of Spain. But the sec-
ond son was not even granted ad-
vance advertising. And yet look at
Manuel of Portugal, a second son,
and the Prince of Wales, a second
son, and King Haakon, a second son.
You really can't tell what these sec-
ond sons may become. Why, even
William Howard Taft is a second
son.—St. Paul Dispatch.

IMMIGRATION FOR WISCONSIN.

The publisher is just in receipt of
the first issue of a publication known
as the Wisconsin Homeseeker, issued
by the Chicago & North Western Ry.
for the purpose of stimulating immi-
gration to Wisconsin and furnishing
information in regard to its natural
resources.

A series of letters from settlers is
published in the Homeseeker, in
which these pioneers tell in an inter-
esting way something of their expe-
riences in establishing new homes
and developing their land into profit-
able farms.

The North Western is desirous of
securing as many more testimonials
of this kind as possible. A letter
from you would appeal strongly to
the prospective homeseeker, and ev-
ery homesteader is earnestly invited
to write a letter telling of the crops,
soil, climate, schools, the cost of get-
ting a start, etc., for use in this man-
ner, and send it to us together with
the names and addresses of friends
in the East who would be interested
in having a copy of the "Homeseek-
er," illustrated books, maps and other
literature mailed to them free of charge.

subject to Mr. W. B. Kniskern, P. T.

Unvalued Advice

Surgeon General Rixey was talk-
ing about his recent statement con-
cerning the harm that cigarettes do
sailors.

"Let them defend the cigarette if
they please," he said; "whenever I
hear these defenses I think of the
sick horse and the turpentine."

"Tom met Bill on the road one
day."

"Bill, I want a word with you,"
he said.

"Be quick then," said Bill. "I'm
in a hurry."

"What did you give your sick
horse the other day?"

"A pint of turpentine."

"Tom hurried home and poured
a pint of turpentine down the throat
of his own ailing nag, which at once
grew worse, and in an hour was
dead."

"Then Tom, disgusted with Bill's
veterinary ability, sought him out."

"Why, Bill," he said, "I gave my
horse a pint of turpentine and it
killed him."

"So it did mine," said Bill.—

Bishop's Story of Tact.

The late Bishop James Newburn
Fitzgerald, in an address in St. Louis
once declared that sympathy, far
more than eloquence or learning,
made for success in the ministry.

"Too many of us, through lack of
sympathy," he said, "say the worst,
the most inappropriate thing. Thus a
young Baptist friend of mine, con-
doling with a housebreaker in jail,
droned: 'Ah, my friend, let us re-
member that we are here today and
gone tomorrow.'"

"You may be; I won't," the house-
breaker answered, shortly.—St.

Edison to Mark Twain.

Thomas A. Edison paid a very
pretty compliment to Mark Twain at
a recent dinner of the Engineers' club
to Andrew Carnegie. Using his place
card as a memorandum page, and
writing with lead pencil in the small
round letters characteristic of his
hand, Mr. Edison inscribed a senti-
ment and handed the card idly over
to his neighbor, L. A. Martin. It read:

When Golf Is a Slow Game.

L. C. Hull, the young American
who won nearly all the important
events in the freshmen sports at Ox-

game but golf.

At Chinnecock hill, one afternoon,
a New York athlete saw Mr. Hull re-
tiring towards the dressing rooms
disconsolately.

"How many holes have you play-
ed?" the New Yorker asked.

"Only three or four," said Hull.

"Only three or four in two hours?"
cried the New Yorker.

takes me so long to put the turf

Science and Friendship.

A Baltimore man, who frequently
visits a scientific friend in Catons-
ville, once found him in his labora-
tory studying a dark brown sub-
stance spread out on a sheet of pa-
per.

"I say, Brown," said the scientific
person when greetings had been duly
exchanged, "would you mind letting
me place a bit of this on your tongue?"

My taste has become sadly vitiated
by trying all sorts of things."

"Certainly," responded the ac-
commodating friend, and he prompt-
ly opened his mouth.

The professor took some of the
substance under analysis and put it
on his friend's tongue, whereupon
the Baltimore man worked it around
in his mouth for fully a minute, test-
ing it as he might have sampled a
choice confection.

"Note any effect?" asked the pro-
fessor.

"No, especial effect."

"It doesn't paralyze or prick your
tongue?"

"No, that I can detect."

"Didn't think it would. There are
no alkaloids in it, then. How does
it taste?"

"Very bitter."

"Very bitter, eh?" Then, after a
pause, "All right, that will do."

By this time the caller's curiosity
was aroused. "What is it anyhow?"
he asked.

"I don't know. That's what I

THE IRON LORD

A Hitherto Unpublished Story of
Immense Power.

By
S. R. CROCKETT.

(Copyrighted.)

"Cruel—well, no' exactly," said
the ancient gardener of Gorm House,
"ye see he was just a man that
should never have been married. Of
such there are two kinds—And tak'
ye tent, lassie, o' what I am say-
in! There are them that canna sat-
tle to any woman. Jacob
Romer was of the first sort. After
a month, his wife was nae mair to
him than a coat that didna fit. A'
that he thoct about was just how to
get rid o' her!"

A moan forced itself from Vida's
lips. The old man turned in aston-
ishment, his shears still clip-clipping
emphatically in his fingers.

"Eh, lassie—but what's the mat-
ter—are ye aillins no weel?"

"I am better already," said Vida,
snatching desperately at her self-
control. "I was only sorry for the
poor wife that died without ever be-
ing loved."

"If ye kennaed Jacob Romer as weel
as me, ye wadna greet for her!" said
Abraham Fyfe. "Sure am I that
balth the mither an' bairn will be
leapin' an' skippin' like two bonnie
young lambs on the mountains o'
Beaulah—just to be rid o' Jacob
Romer an' Jacob Romer's temper!"

"And why, then, do you serve
such a man?" said Vida, looking at
the sober face of the old Cameron-
ian, momentarily lighted up with a
flash of sombre fire.

"Deed, then, my bonnie, it is be-
cause Abraham canna weel do ither-
wise. Ye see, I served his uncle, the
Auld Man—he was ca'd after—
Jacob Gorm the First. An' I kennaed
the lad, an' fed him wi' apples an'
comforted him wi' goose-gogs when
his uncle thrashed him—ay, for he
was sorely thrashed in his youth.
An' maybe it was his uncle's ill-usin'
him that made him the hard man he
is this day. But, at any rate, God
didna mak' me a judge an' a divider
over Jacob Romer. He has been a
haid, but no' an ill master to me.
The pair lads at the pits wha are
under the thumb o' that miscreant
ill-temper'd Jacob Kahn—they can tell
a different tale. But for me, when
my maister is to be blamed in that
which concerneth me, grace is given
me to withstand him to the face.
But as to the rest of his dealings
and doings which concern me not,
they are between him and his God!"

"No," cried Vida suddenly, "they
are between us two also—between
him and me—oh, I hate him—I
hate him—I hate him!"

Her excitement did not surprise
the old Cameronian, accustomed to
the stress of spiritual emotions. He
laid his hand with affectionate un-
derstanding on the girl's shoulder,
now shaken with her sobs.

"I ken—I ken," he said, "Ye are
young. Ye hate iniquity. That is
sound in the faith. But let us not
cause you to meddle with the man
that wrought it. Dinna trespass on
the Almighty's preserves, and mind
that yin o' the chief o' them is Ven-
geance. Be still and know that
I am God." That is the message. Ay,
even if ye were a pair young wife
herself!"

"Oh, you are old—you do not un-
derstand—you do not know—" cried
Vida, with all the youthful bitter-
ness of her soul in her voice.

"Maybe—maybe," said Abraham,
touching her arm gently, "but I have
served God with an humble heart
for fifty year, and Jacob Romer with
my hands for near as lang, an' I
understand enup o' balth juist to
leave the two o' them to it!"

THE COMPLETE NEWS OF THE NORTH SIDE TODAY

IF

Motor cars were already so far perfected that further improvement were impossible what would be the acknowledged defects in the present type of vehicle? Judging from the controversy which goes merrily on among builders of gasoline vehicles it would seem that a standard has been set up by at least one manufacturer which is worth the expenditure of much money and endless experimenting in striving to attain FLEXIBILITY—Yes, that's it.

Mr. Auto Agent will say to you: "Yes sir, we have here a car which is nearly as flexible as a White Steamer. It contains a six cylinder motor which gives almost the same ease of control as a White." Now really, Mr. Auto Buyer, do you accept this statement as a fact? Just a minute—Does this flexible six cylinder gas car have a clutch, and another thing—how many speeds?—Oh yes—three forward and one reverse. I see, and here you have something that looks like—Yes that's where you advance the spark. And here this looks like the old familiar lever which you gasoline men call a throttle, and that reminds me the only thing you have to operate on a White Steamer to vary your speed from zero to sixty miles per hour is the throttle.

No, the flexibility and ease of control of a White have not yet been equalled even with the added two cylinders which many well known motor car builders have added to their power plant in order to approach as nearly as possible the standard set up by the INCOMPARABLE WHITE.

RETURN FROM GOLDEN WEDDING

MR. AND MRS. CHARLES ROSSOW BACK HOME AGAIN

WATERLOO RIDGE IS SCENE

Mr. and Mrs. Jonas Swenson Are the Recipients of Many Valuable Gifts and Congratulations

Mr. and Mrs. Chas. Rossow have returned to their home, 312 Rose street, from Dorchester, Ia., where they have been attending the golden wedding anniversary of Mrs. Rossow's parents, Mr. and Mrs. Jonas Swenson. The celebration took place Saturday at the old family home on Waterloo Ridge.

Mr. and Mrs. Swenson were married in Wilmington township in 1858. After their marriage they returned to Waterloo Ridge and have made their home there ever since. They had twelve children, and five are still living. The living are S. J. Swenson and Mrs. O. C. Evermore of Waterloo, Mrs. N. S. Johnson of Medina, N. D., Mrs. Charles Rossow of La Crosse and Martin Swenson of Totfield, Alberta, Canada. All of the children attended the anniversary celebration, with the exception of Martin.

Mr. Swenson has been farming the greater portion of his life and by hard labor has made himself and family independent for the remainder of their days.

They are hale and hearty in their old age and in the community in which they live are honored and respected. All during the day they were visited by their many friends who came, some from great distances to extend their congratulations. They received gold coins amounting to \$250, together with many other valuable presents. Many friends came from other states, some coming from California.

CARNIVAL SHOWS ON THE WAY HERE

The big North Side carnival will open Monday night. The shows are expected here tomorrow and Monday. Secretary Gibson has secured several other shows besides the acts booked by the Northwestern Booking association. These shows are playing at Eau Claire this week and if they come here they will be a big addition to the attraction. Mr. Gibson is on the trail of a balloon artist and expects to secure him together with a high diver. All the necessary accessories to a big carnival have been secured and no doubt the carnival will be a big success.

Among the attractions secured from Minneapolis will be Hamilton, the trained colt. There will also be six comedy acrobats who will do a 40 minute act. These people have never played under canvas before, having been on the Orpheum vaudeville circuit.

TRAIN IS RUN IN TWO SECTIONS

Train No. 6 was run in two sections today and will be for several days to accommodate the increased traffic at this time of the year. If the heavy traffic continues it will be necessary to run another train, as has been considered among railroad men for some time.

BURNING BALLOON FALLS ON ROOF

Department number 2 was called out last evening to extinguish a burning balloon which had fallen on the roof of the Hutter residence on Mill street. When the department arrived the fire was out so the trip was useless.

FUNERAL OF CHAS. JOHNSON MONDAY

The funeral of Charles Johnson, who died yesterday morning at 10:30, will be held at 9 o'clock Monday morning from St. James Catholic church with Rev. Ambrose Murphy officiating. The interment will be made in the Catholic cemetery with William Dwyer in charge.

NORTH SIDE BRIEFS.

Mrs. Peter Selger of St. Joseph's Ridge is the guest of Mrs. Allen over the 4th.

Mr. Andy Noel and H. A. Brooks have returned from a clam buying trip to St. Paul in a launch in the interests of the pearl button factory. They report a fine trip and secured a large bunch of shells.

Miss Grace McLindon and sister arrived from Cleveland, O., this morning. They will visit their parents on the North Side.

The North Side Bottling works have two new wagons of the latest model for delivery purposes. One will be for the South Side and one for the North Side.

GOV. TO AID FARMERS IN SECURING HELP

WASHINGTON, D. C., July 4.—Through the department of commerce and labor and the postoffice department, Secretary Straus and Postmaster General Meyer have inaugurated a plan of service which will relieve farmers and others in this country from further embarrassment in the matter of procuring adequate help. The details are being promulgated through the division of information, bureau of immigration and naturalization, department of commerce and labor, and Assistant Postmaster General DeGraaf, through the rural delivery service.

The plan is original to this country and contemplates a general distribution of admitted aliens and other persons seeking employment. In that view, there are being forwarded to postmaster throughout the United States, packages of cards, with return attachments, for distribution to farmers and others who are likely to need the services of farm and common laborers, or mechanics, and who may obtain the character of help required by mailing the return information card, properly filled out, without payment of postage.

For this valuable service no charge is to be made, or fee accepted, either from employer or employee, and the officers entrusted with the work will exercise every possible precaution in selecting men and directing them to destination.

In cases where labor is not needed at this particular time, the applications may be retained by prospective employers for future use. The work of selecting suitable persons to serve in the several fields of labor covered will be given special attention by experts designated by the department of commerce and labor.

MRS. FAVILLE GIVES A FAREWELL COMPANY

Wednesday afternoon Mrs. Henry Faville entertained half a dozen young ladies at a little company in honor of Miss Anna Hallock, who is to leave soon for Brooklyn where she will enter Pratt's institute and take a course in domestic science. It was in the nature of a farewell shower, all of the guests carrying some article that would be useful for her in her work. The guests were Mrs. Mildred Carr, Mrs. Edna Evans, the Misses Hallock, Edna Tarbox, Bertha Lawrence, Mary Forbes and Carrie Marsh.

Mrs. E. M. Wing gave a tea yesterday afternoon in honor of her sister from Spokane.

Wednesday afternoon Mrs. J. E. Emmerson entertained a number of ladies in honor of Mrs. Nellie Martin Clarke. The guests present were Mesdames Clarke, Bower, E. D. and I. D. Ruggles, Dickinson, Jackson, Schall and Miss Carrie Evans.

Mrs. Jackson of State street entertained a few ladies one afternoon during the week for her daughter, Mrs. Bowers, of Orient.

LAUNCH RIDES.

Thursday afternoon Miss Belle Boyd entertained about thirty friends on a launch ride. They went up the river and landed on the Minnesota shore where lunch was served.

Mrs. Will Ott took a party of fourteen on a launch ride Thursday. A landing was made at Dresbach Park where a picnic supper was served. It was given in honor of Mrs. Elliott of Davenport, Ia., and Miss Doan of St. Paul who are guests of Mrs. John Elliott.

\$100,000,000 NOT CAMPAIGN TALK

TROUBLES OF THE TREASURY MAY INJURE TAFT

ADMITTEDLY \$70,000,000

And Various Estimates of the Deficit This Year Are That it Will Aggregate \$100,000,000

WASHINGTON, D. C., July 4.—Faced by the certainty that the deficit in the treasury of the United States at the close of the present fiscal year, June 30, will be close to \$70,000,000, the officials of the government admitted today that at the end of the next twelve months the deficit will be even greater and may approximate \$100,000,000.

The explanation of the present shortage in the funds of Uncle Sam lies in the business depression of the past year. The explanation of the fears of the \$100,000,000 deficit at the end of the next fiscal year is the fact that the fast session of congress appropriated more than \$1,000,000,000.

That this situation is giving the republican campaign leaders some concern, is recognized here. They will be put to some trouble for an explanation of what is almost an unprecedented gap between the income and the outgo. That the democrats will make use of the trouble, is also assured. They have already begun to get busy sounding the slogan of "republican extravagance" and asking the opposite party to accept the blame for the conditions as they are. The affair becomes all the more grave when it is remembered that at the end of the last fiscal year there was a large surplus on hand in the treasury.

For the past few months, in fact ever since the panic the falling off in the revenues of the government has been most marked. The present deficit would be even greater than it is had it not been that last summer, at the beginning of the fiscal period, the receipts were unusually large. Now that the twelve months have ended, however, it is found that the customs revenues amount to \$285,000,000, which is \$48,000,000 less than they were last year. This shrinkage is attributed to the treasury department to the general falling off in business activity and to the talk of tariff revision. It is always the case when the revision talk is stirred up, and this time the talk sounded so positive that the effect was inevitable.

A similar shrinkage in the internal revenue receipts was noticeable. From this branch, the government took in \$269,000,000 in the year before the present. In the one now ending, these receipts were \$20,000,000 less. This is attributed to the spread of prohibition and also to the general business depression.

In the month of June the receipts from the customs service began to climb upward in a small way, but within the last four days they have started downward once more. The great thing which is giving the government officials concern is that they can see no reason for optimism in this regard for the rest of the summer. Those familiar with such conditions believe that conditions will remain about as they are until after the election in November.

If then, the talk of tariff revision continues—as it undoubtedly will—they fear that things may get even worse. The time for improvement will not come, they say, until the work of revising the tariff has been completed. Then, after the different branches of commercial activity have become accustomed to the new grooves, prosperity for the government will begin to eventuate.

Official Washington these days is remembering with great respect the work that was done in the last session of congress by Chairman Tawney, of the house committee on appropriations, to keep down the appropriations of government expenditures as far as possible. They recollect now that he persistently and almost ceaselessly struggled against the policy of big appropriations, doing this work in his committee and on the floor of the house. At the very beginning of the session he sounded the warning that the appropriations must be kept down.

But, despite his fight, the committee on military affairs, naval affairs, agriculture and the postoffice went ahead, shooting in appropriation bills which, at the end of the session, brought the grand total up to \$1,000,000,000. It seems the irony of fate that Tawney, the man who tried to prevent it, is spoken of as the one who will head the republican congressional committee in fact if not in name and be confronted with the task of explaining away the deficit that now exists.

FUNERAL SUNDAY

The funeral of Orlando Jamesson, who was killed yesterday noon will be held at 3:30 o'clock tomorrow afternoon from the residence at 1319 Berlin street. Rev. Tenbrook officiating. The interment will be made in the Oak Grove cemetery with William Dwyer in charge.

TRAMPS ARRESTED.

Two tramps who were selling stolen hose nozzles and other articles caused considerable excitement yesterday afternoon on the North Side when they gave Officers Yehle and Taylor a chase. They were finally taken after a spurt of several blocks to the central station.

MRS. FRANK J. GOULD AND HER HUSBAND FRANK J.

NEW YORK, July 2.—Mrs. Frank J. Gould's petition for divorce lays bare the fact that private detectives, employed by Frank J. Gould, have continuously surrounded her during the past years of their married life. This is due to Mr. Gould's crazed jealousy of his young wife. These are the developments of the latest millionaire divorce scandal. It is learned today that Mrs. Gould's suit for absolute divorce was based on statutory grounds, and involves the name of a young lady whose identity is not yet made known.

A specific act of misconduct with the young woman will be alleged to have taken place three or four years ago off Sidney, Nova Scotia. There will be much testimony from former members of the Helena crew.

This, it is said, was only one of a number of acts of misconduct to be charged by Mrs. Gould against her husband. The nature of the specific acts not even Mr. Gould will know for several days, as he has not been served with the full complaint.

Under the law the papers in the case must be filed within 20 days after the serving of the summons. The public probably will never know the precise nature of the testimony offered in the suit, as it was declared a motion will be made to argue the proceedings in private before a referee.

THE WORLD'S TOTAL
OF TELEPHONES

A recent careful estimate of the
number of telephones in the world
shows that there were at the beginning
of the present year about 7,200,000. Of
these about 2,000,000 were in Europe,
200,000 in other countries exclusive of
the United States, where there were
about 5,000,000, of which 3,000,000 were
included in the Bell system, sprinkled
more or less evenly throughout the
country from ocean to ocean and from
the Great Lakes to the Gulf, covering
every state and territory. The Bell
telephones, constituting the greatest
system in existence, are linked together
by more than 7,000,000 miles of wire.
Of this network the Wisconsin Com-
pany is an essential part. Growing ap-
preciation of the advantages of a com-
prehensive system is shown by the fact
that hundreds of local companies have
been united under a sub-license ar-
rangement with the larger organiza-
tion. Long distance connection is
wanted everywhere.

THE WEEK'S EVENTS.

The Paul-Causey wedding was the
leading event of the week. It was
a brilliant affair, many from out of
the city being in attendance. The
bride is the youngest daughter of
Mr. and Mrs. John Paul, born in
this city and a popular young society
woman.

Numerous other affairs in the line
of coffees, teas, luncheons and launch
rides in which the visitors have taken
an active part, have been given. The
"day we celebrate" did not dawn au-
spiciously and many are the heart-
aches and great disappointments over
the launch rides, picnics and family
gatherings called off on account of
the weather. Among the pleasant en-
tertainments was the luncheon given
at the Country club by Mrs. F. J.
Smith, the informal hop given at the
same place by Messrs. Paul in honor
of the approaching nuptials of their
sister, and the regular weekly dance
given by the members of the club.

Mrs. J. H. McDonald gave a tea,
and Mrs. A. W. Schall a coffee, and
Mrs. I. D. Ruggles, Mrs. J. E. Em-
merson, Mrs. Jackson and Mrs. E.
M. Wing were among those who en-
tertained for the visiting strangers.

PLEASING RECITAL BY
MISS SCHUMANN'S PUPILS

The recitals given by Miss Schu-
mann's pupils at the residence of
Mr. Charles H. Schweizer on Monday
and Tuesday evening of this week
were largely attended and enjoyed
by all.

It is needless to say that the pro-
grams given were rendered with ar-
tistic ability and skill. The audience
paid a fine tribute to teacher and
pupils on Monday evening at the
close of the program by remaining
seated and expressing by their vig-
orous applause a desire for a conti-
nuance of the musical treat.

Monday evening's program was as
follows:

Sonata Op. 14 No. 1, Andante
..... Paul Egbert.

Sunshine Morning Gurlitt
Grandfather's Birthday Frank Funke.

The Miller's Tale Necke
Helen Esch.

Water Nymphs at Play Heller
Ellenore Schweizer.

Unglue Combs
Alice Foster.

German Song Tschacowsky
Ruth Hillestad.

Valse (posthumous) Chopin
Ellenore Schweizer.

Songs Ambrose
In the Dark, in the Dew Coombs
Miss Minnie May.

Il Trovatore Melnotte
Charlotte and Helen Smith.

If I Were a Bird Henselt
Frances Egbert.

Nocturne Op. 9, No. 2 Chopin
Butterflies Lavallee
Charlotte Harpel.

'Twas a Lover and His Lassie Nevin
Dorothy Smith.

Hark, Hark the Lark! Schubert Liszt
Lois Hallik.

Romance Op. 28 Schumann
Staccato Caprice Vogrich
Ruth Vance.

Miss Minnie May gave three
charming song numbers on Monday
evening and Mrs. P. C. Cilly pleased
all with her numbers on Tuesday
evening.

MYRICK PARK PICNIC

"Rain, rain, stay away, come some
other Saturday." This is the chant
of the boys and girls of the West Av-
enue Methodist Episcopal Sunday
school, who are to have their outing
in Myrick park, July 11th. Games
and contests and refreshments will
tire limbs and cheer stomachs.

SOCIAL BRIEFS.

Mr. and Mrs. George Hixon and
Miss Sue Kellerher of Chicago are
the guests of Mrs. G. C. Hixon over
the Fourth. They will return Sun-
day evening.

Mrs. F. P. Hixon returned re-
turned yesterday morning from Chi-
cago. She was accompanied by Miss
Emma Staples, who will be her guest
over the Fourth and Sunday.

Miss Helen Snow and Mr. Arthur
Nebb of Sioux City are guests at the
residence of Mrs. E. J. Toland.

Miss Harriet Jefferson has moved
into her pretty little home on Six-
teenth street.

Mr. Abner Withee leaves this eve-
ning for Watertown, Fla., where he is
engaged in business.

The Woman's union of the Congre-
gational church chartered the steam-
er W. W. for next Saturday and will
give an excursion to Winona. It will
be a pleasant little trip, providing the
weather is pleasant. The boat will
leave here at 2 o'clock and return
early in the evening.

Miss Anna Hallak who has been
for a number of years one of the
teachers in the public schools, will
leave here next week. She will go to
Brooklyn and enter the Pratt insti-
tute, where she will take a course in
domestic science.

Mrs. W. P. Cunningham and fam-

ily will leave on Tuesday for a
month's trip to her former home, in
Chicago, stopping en route at North
Freedom and Baraboo. Mr. Cun-
ningham will accompany them to
North Freedom, returning in time for
the Sunday school picnic on Satur-
day and for Sunday services.

LADIES' INDUSTRIAL SOCIETY

The Ladies' Industrial society of
the First Baptist church will be en-
tertained Thursday afternoon by
Mrs. H. Bender and Mrs. M. Moore
at the home of Mrs. Moore, 1115
South Seventh street.

AFTERNOON AND EVENING COM-
PANIES.

Mrs. A. W. Schall entertained
about twenty-five ladies yesterday
afternoon in honor of Mrs. Nellie
Martin Clarke of Trenton, N. J. The
decorations were of a patriotic na-
ture, the national colors being taste-
fully introduced in various ways.

The guests were Mesdames Clarke of
Trenton, N. J.; Bowers of Chicago,
Wayne Bentley, Bradford, Bangs-
berg, Steadwell, Hoefler, E. D. and
I. D. Ruggles, C. N. Dunham, Irish,
the Misses Sadie and Josephine Mc-
Cann, Carrie Evans, Jessie Emmer-
son and Miss Elizabeth Burroughs.

Tuesday evening Mrs. I. D. Rug-
gles gave the second of a series of
companies. Four tables of Somerset
were played. Miss Jessie Emmerson
took the first prize. The guests were
Messrs. and Mesdames Thwing,
Steadwell, Worthington, Grover,
Schall, the Misses A. Sadie and Jo-
sephine McCann, Clara and Bessie
Osborne, Nellie Manchester and Car-
rie Evans.

WEDDING AND ANNIVERSARY.

Thursday Miss Bertha Nielson and
Joseph C. Mertlik were married and
the parents of the groom the same
day celebrated their silver wedding
anniversary. The affair took place
at the St. Wenceslaus church with a
large number of friends and rela-
tives in attendance. William Mert-
lik, a brother of the groom, acted as
best man while Miss Ida Wensch
acted as bridesmaid. After the cere-
mony a wedding supper was served
at the home of the bride's parents
on Redfield street and a good time
was enjoyed until a late hour.

WALTER LEE'S BIG
PRIVATE OBSERVANCE

Probably one of the happiest boys
in La Crosse today is Walter Lee,
son of Sing Lee, proprietor of the
chop suey restaurant on Third street.
Master Lee was the recipient, a short
time ago, of a large amount of fire-
works, sent him by friends in the
Orient. Walter has invited all his
friends to join in the shooting off
of the fireworks which will take
place at the river front this evening.

Owing to the large amount of fire-
works, the police have requested that
Mr. Lee spend the evening near the
Lovee Park where they may enjoy
themselves without molesting others.

TOO LATE TO CLASSIFY.

Chicago Tribune's News From Denver

**The World's Greatest Newspaper
Will Maintain Its Record**

THE CHICAGO TRIBUNE'S report of the Denver convention
will be as much better than that of any other newspaper as was its
report of the republican convention in Chicago

THE TRIBUNE will be represented in Denver by a staff of
twenty men under the direction of James Keeley, Raymond Patterson,
and John Callan O'Laughlin. It is almost unnecessary to say that no
three men have such record for scoops as these representatives of
THE TRIBUNE.

THE TRIBUNE also has added to its staff Willis J. Abbot, who
enjoys closer personal relations with Mr. Bryan than does any other
newspaper man, and who will write daily articles during the convention.

THE TRIBUNE will be the only newspaper east of Denver with
a complete leased wire service. The telegraph companies have refused
leased wires to newspapers in order to reserve the wires for the press
associations. In the emergency THE TRIBUNE arranged for the use
of the long distance telephone wires between Denver and Chicago,
which will be equipped with telegraph instruments.

C. A. Briggs, the cartoonist, is now in Denver, and his character
sketches of the participants will appear daily, supplementing the work
of THE TRIBUNE'S staff photographers.

John T. McCutcheon's daily cartoons on the first page will add
new laurels to those he now bears as the world's greatest cartoonist

*The demand for THE CHICAGO TRIBUNE during the
republican convention was so great that thousands who neg-
lected to notify their newsdealers in advance did not get
copies. Order from your newsdealer today.*

PEOPLE WILL COME TO NEED THE RIVER

THE RIVER NEEDS THE PEOPLE
JUST NOW

TRUX REACHES GALENA, ILL.

Gives Paper There an Idea of the Big
Towing Launches Which Are
Used on European Rivers

The time is coming, and that not
far distant, when it will not be a
question of the Mississippi needing
the aid of the people, that there be
maintained a six foot channel from
St. Louis to St. Paul, but rather of
the people needing the Mississippi;
when the freight and passenger
transportation problems of the mil-
lions west will absolutely demand
that this channel be maintained, and
transportation on the Mississippi
will bear the same relationship to
the traffic of the middle west that the
great river itself bears to the other
rivers of the American continent.

The trip by motor boat down the
Father of Waters by Mr. Melville E.
Trux, the correspondent of The Tri-
bune, and the Motor Boat, who reach-
ed Galena yesterday, is proving of
value in continuing to hold the inter-
est of the people of the Mississippi
valley to the possibilities of the six
foot channel, besides being the means
of securing a wealth of valuable da-
ta for future dissemination. There
was a period extending possibly over
a generation when interest in the fu-
ture of the Mississippi was at a low
ebb, but within the last few years
the pendulum has swung the other
way and it is believed by hundreds
and thousands that the people will
fully awaken to its possibilities as
an avenue of commerce, and will re-
store to the Father of Waters that
commercial prestige that it once en-
joyed.

So great an authority on the trans-
portation problems of the United
States as James J. Hill, president of
the Great Northern railroad, has
made the statement that with the re-
turn of prosperity the railroads will
be absolutely unable to cope with the
transportation situation, and that
it would require an outlay of mil-
lions of dollars throughout a period
of several years to build the neces-
sary tracks and secure the equipment
that the commerce of the future will
demand.

It is conceded by those who are
giving the problem thought, that
when the six foot channel is con-
structed as it is bound to be in the
course of the coming few years, that
the Mississippi will take on a new
appearance. Instead of the unwieldy
toe boats which were a common
sight on the river a generation or
more ago, there will be used launch-
es, much lighter in weight, much
more easily under control, and pro-
pelled by power generated from gas-
oline, or kerosene. Reference was
made in these columns to the fact
that these boats are already beyond
the experimental stage in Germany.
These crafts are from seventy to one
hundred and fifteen feet in length
and near the center is an ordinary

CITY NEWS

FILL LEVEE PARK.—Work is
progressing on the new levee park.
Trees have been set out and the work
of filling in has started. The park
will be an addition to the present
levee park and is the first step of
beautifying the levee by the city.

STOCK SHOW.—The Northwest-
ern Livestock association, which en-
tered the field with a successful show
at the Union Stockyards in South St.
Paul last year, will present its sec-
ond annual show at the same place
November 17th to 20th, 1908.

sized post such as are seen on tugs
in New York or Chicago. Around
this post is fastened several rings to
which the hawsers of the barges that
are to be towed are fastened. The
tow which cuts the water like a
launch is by this arrangement able
to be steered with comparative ease
in one direction and another. A
greater number of barges can be
towed at one time, they are under
more complete control and better
time is made. Experiments are being
made at present with kerosene as
fuel instead of gasoline, a greater
amount of power being secured from
combustion of the former.

When these boats are perfected
and put in use, great barges of coal
will be brought down the Ohio and
up the Mississippi to St. Paul, and
returning will carry cargoes of flour.

During his brief stay in Galena,
Mr. Trux urged upon the launch
owners the organization of a motor
boat club there. There are over
thirty launches owned in this city,
representing an investment of several
thousand dollars. Other cities along
the river with a much smaller num-
ber of launches have organizations
of this nature, which are productive
of mutual friendship and protection.

CUTTING RED MEN IS CHARGE

WALKER, Minn., July 4.—H. E.
Nason, marshal of the village of
Bena, has brought Ben Hawkins, col-
ored, here to await the action of the
next term of the district court. Haw-
kins was arrested on the charge of
cutting two Indians, Peter Kiekun
and John Rabbitt, with a knife. The
condition of the Indians is serious.
Dr. Smith of Cass Lake, who dressed
their wounds, says they will live.

Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

G. B. Burhans testifies after four years.
G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." LIVES AFTER BEING BURIED 90 HOURS

NASHVILLE, Tenn., July 4.—John Robertson, a young convict, sought to escape captivity by hiding in a hole beneath the floor of the pattern room of the prison here until opportunity afforded him a chance to get over the walls. The prison authorities put guards on the walls and locked up Robertson's cell mate, cutting off the hidden man's chance of food and water. He staid in the hole ninety hours. The hole was investigated and Robertson found.

The fellow who is stuck on himself is not always a sticker for good form.

GOLD PIECES GIVEN AWAY!

A FAIR CHANCE FOR ALL YOU MAY GET THE GOLD

A GRADUATE of Ann Arbor has claimed that there is a grammatical error in the reading matter on the "INDIAN CORN FLAKES" package. Read the package over carefully; then write what you think the Ann Arbor graduate referred to.

At the same time, write us why you think "INDIAN CORN FLAKES" is better than any other Corn Flaked Food. Just a short letter; not more than one hundred words in length.

To the writers of the best letters we are going to give \$500.00, and here's where the GOLD comes in.

To the writer of a correct reply, together with the best letter on the superior quality of "INDIAN CORN FLAKES" we will send \$20.00 in GOLD. To the writers of the next five best letters and correct replies, we will send each \$10.00 in GOLD. To the next sixteen best, we will send each \$5.00 in GOLD. To the next seventy-five best, we will send each a crisp \$2.00 bill. And to the next 200 best we will send each a crisp \$1.00 bill. Two hundred and ninety-seven prizes, all.

The general character of the letter will be considered equally with the correct replies, so that the last letter received may get the GOLD. The contest closes July 10th and letters must reach us by that time. We will send the GOLD as soon afterwards as the letters can be read and judged.

Address letters to the Indian Corn Flake Co., Battle Creek, Mich. Sign your name and address plainly, and do not delay as this advertisement may not appear again.

WOMEN STORM LOS ANGELES JAIL

LOS ANGELES, July 4.—A hundred women, bearing a banner of the "Women's Socialist union," stormed the city jail demanding permission to see ten "comrades" confined there, charged with speaking in the city streets without permission of the police commissioners. The women and scores of their sympathizers overran the central station, demanding a hearing. The officials finally allowed ten women at a time inside the bars. Then came a wordy war because fruit and flowers were not admitted. The women declare they will speak in the streets and submit to arrest until there is no room in the jail.

Fair play is all any man wants, but he wants to be the judge of its fairness.

SAENGERFEST ...NEWS...

LAST GREATEST OF EARLY FEST

HUGO SCHICK TALKS OF THE
1894 EVENT

THOUGHT THE LIMIT REACHED

Number of Voices Tripled This
Month, but Limit Was Surely
Reached When 2,200 Sang

The greatest Saengerfest was the last one of the old series. The reason that the last one was the best is that each successive saengerfest was better than its predecessor and the last one naturally reached the highest state of perfection," said Architect Hugo Schick this afternoon, when he was asked what was in his opinion the best saengerfest held in the old times.

"Yes, the saengerfest of 1894 was the best of the old time meetings," he repeated. "I remember at the last one we held here in the city there were 700 singers on the stage and then it was thought that the singing societies had reached the highest state of attainment."

"The ordinary person little knows what it means to have 1800 singers, which will be the number that will be on the stage at the coming saengerfest. The whole chor must be machine-like in their singing and each note must be in time or the entire effect is spoiled."

"When we had the last saengerfest in the old Empire Roller rink in 1894, I thought as did the other members that the thing had about reached its limit and that it would be impossible to have any more voices and have them under control. The present saengerfest includes singers of note from the whole United States and the singing will be of the very best attainable. However, the members in talking it over the other day said that although the 700 seemed a large number and the saengerfest of the present day has nearly trebled it, the highest number that can be put on the stage in a chorus at one time was reached at the North American Verein which was held at Indianapolis in which there were 2,200 singers on the stage at one time. The achievement of this colossal chorus is really marvelous."

When asked about the old timers who were in the first society the Liederkranz, Mr. Schick replied:

"There are only three members of the old society alive. They are George Rose, John Michel and Jacob Rau. The present Northwest Saengerbund is the outgrowth of the old Liederkranz society and it is merely a development of the singing societies of the olden days."

AUDITORIUM IS NEARLY READY

The big Saengerfest hall is now nearing completion. Contractor Frank Schwalbe expects to have the structure completed within the next ten days and has already begun work on the mammoth stage which will accommodate 1,800 singers. It is built on the incline and is the full width of the building. The committee says that every inch of the floor space on the stage will be occupied by the singers. A large part of the stage near the front will be reserved for the orchestra consisting of about 70 pieces.

To add to the seating capacity of the building a gallery capable of accommodating 1,500 people has been built in the northern end of the building and there will be ample room for the immense crowds that are expected to attend the concerts.

Not only is the Saengerfest being boosted by newspapers and orally, but it is also being advertised by circulars cleverly written, sent around to the different jobbers and business men in the city as inserts to be sent out in their mail. One circular has across its face the question, "Taft or Bryan." Although this is the question which the nation is now discussing, the Saengerfest question at the present time seems to come even before politics. "There is no question, not a shadow of a doubt but what you'll have the time of your life at the Saengerfest," says the circular. This circular also sets forth the stars that will shine at the fest. Miss Anna Hickisch of whom the city of La Crosse is so proud, late

JOHN MALIN TELLS OF EARLY "FEST"

ONLY THREE SURVIVE THE
FIRST GATHERING

ATTENDANCE WAS NOT LARGE

Gatherings Were Not to be Compar-
ed With the Great Event to be
Held Here This Month

"A large auditorium was not necessary in the early days of the Saengerfest," said Quartermaster John G. Malin this morning in speaking about the coming Saengerfest to be held in the city starting July 23. "In those times the Saengerfests were held on a much smaller plan and I remember in 1883, when the Northwestern Saengerfest was held here, there was about four hundred singers present and it was considered an exceptionally large fest. I came to La Crosse during the month of June and as I was a member of the Saengerbund before coming here I took a great interest in the fest that was held the following month, and was surprised when the fest was as

from London, England, is exploited as the prima donna soprano. There are also Miss Estelle Solon, a soprano of renown from Minneapolis; Miss Carrie Seyferth, an alto from Milwaukee; William Andersch, baritone, late from Vienna, and E. O. Forseth, also baritone, of La Crosse. With these stars the Saengerfest ought to be the brightest spot on the earth, Denver included, says the circular.

Mammoth Auditorium Complete.

The huge auditorium in which the Saengerfest is to be held, is now completed. Professional speakers, noted musicians and the highest authorities have inspected the big building and unanimously pronounce its acoustic properties perfect. The stage alone will seat about 3,000 people, and the stage is the smallest part of the structure. From this a conclusion of its immense size can

be drawn. It will be something worth hearing and remembering to listen to the 2,000-voice chorus accompanied by Bach's Milwaukee Symphony orchestra of 60 pieces.

large and such a success. "In 1883 the fest was held in the old Germania building, which at that time was located on the corner of Fifth and Ferry streets, and there was a garden in connection with the Germania that covered just about the entire block. All the concerts were held in the small auditorium on the second floor of the Germania—a wooden structure—and it could be placed inside the present auditorium being constructed. The picnics held in connection with the fest were held in the garden connected with the Germania and at that time were considered a great success, but were considerably smaller than the affairs to be held here this month."

"The Saengerfest that was held here in 1894 was a great improvement over the previous fests, but of course was still rather tame and the societies here were a little backward about the success of the affair; by the way, which is not the case with the various societies at present. At that time the fest was held in the old roller rink on Tenth street which was elaborately decorated for the occasion. There was one thing peculiar about the fests at the early times,—people not members of the societies or the Saengerbund did not attend and the Saengerfests were attended principally by the singers and their families. In the past few years, however, this has slowly been revised and at present people not especially interested in the singers, attend and this has helped considerably to make the Saengerfest a success. During the fest in 1894 the picnic was held in the Tivoli, where the present Lutheran hospital is located. At that time the picnic did not include the big parade and other affairs that are being planned for the Saengerfest this month. They were pretty tame, when compared with the picnics held in connection with the meetings in the past few years."

"There are," continued Mr. Malin, "but three surviving members of the first fest held in La Crosse in 1866. George B. Rose, the jeweler, John Mitchell and John Rau. The latter is not living in La Crosse at the present, having moved to Wyckoff several years ago; but he expects to be present at the meeting this month. "In the past few years the membership of the various societies has been enlarged and as a number of younger men are now members, the interest in a Saengerfest is greater and of course makes the fests more of a success."

MISS HICKISCH, LEADING SOLOIST

FORMER LA CROSSE GIRL NOW
INTERNATIONAL STAR

WOMAN OF RARE ABILITY

Mr. Harry E. Long Writes Interest-
ing Article on Daughter of La
Crosse Who Has Gained Fame

(By Harry H. Long.)

In the coming saengerfest Miss Anna Hickisch, prima donna, will be the center of attraction.

There are a number of reasons for this, and they may be enumerated as follows:

Miss Hickisch is probably the most distinguished artist who will appear at the saengerfest.

She is a La Crosse girl, and has a host of devoted and admiring friends, her old schoolmates, among the young society people of the city.

She is famed for her beauty as well as for her wonderful voice, and the race is still sufficiently chivalrous to pay tribute to pretty women.

She is one of 1908's June brides, and the old, old story, especially when so romantically told, holds the attention of the world as fixedly today as it did "when knighthood was in flower."

Anna Hickisch was a delightful school girl, and naturally she grew into a delightful woman. From earliest childhood her genius was apparent, and added to her own ambition she enjoyed the advantage of appreciative parents who shared her desire to secure every advantage of culture and training. And truly, no student ever profited more broadly by her opportunities than did the girl who used to evoke applause in the high school "rhetoricals" where the adulation of the students resulted in enclosures which frequently retarded school routine.

After finishing her education Miss Hickisch joined the Alice Nielson company, and sprung into almost immediate prominence. The New England Conservatory had turned out a finished product, and the usual long struggle for recognition in the chorus was happily evaded by the now famous prima donna. Mons. Jacques Boushy, the famous Paris master, under whom she consummated her studies, saw in his pupil a coming star, and proudly predicted a career of eminence which she has fully attained.

As a prima donna Miss Hickisch made her debut in "The Fortune Teller," in which she later made a pronounced "hit" in the Shaftsbury theater, London. Then there came two seasons of grand opera at Covent Garden, in which she sang Faust, Tannhauser, I Pagliacci, Carmen and other famous parts.

While playing "Nedda" in Pagliacci Miss Hickisch received a flattering offer from George Edwards, and went with him to play "Nan" in the Country Girl. As "Lady Pat" in the Cingales at Daly's theater, London, "Agatha" in Veronique at the Apollo, Miss Hickisch reached the height of artistic perfection, and when she began her South African tour, partly out of an adventurous desire to visit that country, the world of music recognized in her one who had come naturally and swiftly to the top place in grand opera.

In Africa Miss Hickisch spent a year and a half, returning then to England, where she played the leading role in such pieces as the Duchess of Dantzic. Since then she has spent four months each year in London, touring the provinces during the remaining periods.

Miss Hickisch surprised and delighted her La Crosse friends about two months ago with the announcement of her engagement to marry Mr. Herbert C. Howland, the famous musical director. The wedding took

place on June 4 inst., following which the bride made her plans for her coming visit to La Crosse. She sailed from Liverpool the 27th inst. on the Cunarder Lusitania, and will arrive here in ample time for the Saengerfest.

La Crosse people will experience pride and pleasure in the coming of Anna Hickisch to assume a leading part in this city's greatest musical effort. Not only is she a talented singer, but her friends know that she is a splendid woman, happy, affectionate and human, in whom the development of high art has not been accomplished at the sacrifice of the feminine traits which make women's home life beautiful. Her welcome here will be from the hearts of admiring fellow citizens and dear friends.

"Perhaps few people realize," said George B. Rose, "that in La Crosse the Northwestern Saengerbund was first organized. This is a matter of history. "The first singing society in La Crosse, the Liederkranz, was organized here in 1866. Their first hall was built in 1868 and was dedicated on October 24, 1868. With the members of the Liederkranz originated the idea of forming among the various cities of Minnesota and Wisconsin a saengerbund. This organization, according to the original plans of the La Crosse people, was to meet every year at the various cities for a singing festival or a saengerfest, as it is known. "The first Saengerfest was held in La Crosse July 15-17, 1866. At that time the following cities took part in the festival: La Crosse, Watertown, Portage, Bangor, Brownsville, Lansing, and New Lisbon. At this

FIRST SAENGERFEST HELD IN LA CROSSE

"Perhaps few people realize," said George B. Rose, "that in La Crosse the Northwestern Saengerbund was first organized. This is a matter of history.

"The first singing society in La Crosse, the Liederkranz, was organized here in 1866. Their first hall was built in 1868 and was dedicated on October 24, 1868. With the members of the Liederkranz originated the idea of forming among the various cities of Minnesota and Wisconsin a saengerbund. This organization, according to the original plans of the La Crosse people, was to meet every year at the various cities for a singing festival or a saengerfest, as it is known.

"The first Saengerfest was held in La Crosse July 15-17, 1866. At that time the following cities took part in the festival: La Crosse, Watertown, Portage, Bangor, Brownsville, Lansing, and New Lisbon. At this

time Watertown received the first prize, while the second was awarded to Portage. At this time John Ulrich was elected president of the Northwestern Saengerbund.

"The next festival took place at Watertown, June 16, 1867, and at this meeting La Crosse was awarded the first prize, and in 1868 the festival was held in Milwaukee, and in 1869 at Madison. In 1871 La Crosse again secured the festival. In 1873 it went to Dubuque, in 1876 to Milwaukee, and after that it was distributed among the different cities in the organization. The Saengerbund is composed of about 150 societies with about 3,000 members.

"Of the original founders of the Bund in La Crosse only two are living here; they are myself and John Mitchell.

"The benefits of the forming of these singing societies are far greater than most people realize. They serve to heal existing enmities. They also create a demand for music and in that way music in this country has been developed. In my belief they are a great thing for the country in general and for the cities in which such organizations have been formed."

GREAT PARADE A FEST FEATURE

One of the big features of the saengerfest will be the big parade which takes place on Sunday, the closing day of the fest. All of the societies present will participate and the civic and secret societies of the city will be invited to take part. It will be the largest turn out ever seen in La Crosse. The societies will meet in the auditorium at noon where the parade will be formed. About a dozen bands will be in the procession. The parade will march through town to the fair grounds where a big picnic will be held.

George Volz was awarded the contract for putting up the stands and tents on the grounds where the picnic will be held.

Mrs. Adolph Candrian has accepted the chairmanship of the reception committee and she will appoint her assistants later. It has also been decided to appoint a committee to take charge of the arrangements in the auditorium.

The children's chorus will be complete by Friday. Over 500 have so far joined the chorus and it is expected that the number will be doubled by Friday.

H. Schick has been authorized to install the electric fans in the auditorium.

CALLAHAN CARTOONS AS SOUVENIR CARDS

Appearing upon the Saengerfest page of The Tribune today are a number of souvenir cartoons by M. J. Callahan, the well known cartoonist, caricatures of leading officials of the fest and dealing with fest affairs.

Mr. Callahan has arranged to have these and other special cartoons reproduced on special post cards and they will be placed on sale in the downtown stores. As these souvenir postals will be a special novelty and something entirely out of the ordinary, it is expected that the demand for them will create large sales from now until after the big gathering.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate woman and child. Not a drop of alcohol enters into their composition. A much better tonic is used both for extracting and preserving the medicinal principles used in them. It is a refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs which, if neglected, or badly treated, lead up to consumption. It is the best medicine that can be taken.

RACINE MAN IS CHOSEN FOR NEXT COMMANDER

MEET AT FOND DU LAC NEXT

After Strong Fight It Lands Convention—La Crosse Woman Heads the Auxiliary

RIPON, Wis., July 4.—The tenth annual encampment of the Wisconsin department, United Spanish War veterans, will be held at Fond du Lac in June next year, the date to be decided on by the department commander after a conference with the members of the Fond du Lac camp.

E. L. Evans of Racine was elected department commander, defeating J. S. Foal of Ripon, who was re-elected senior vice commander, defeating Otto Harros of Milwaukee, who also was defeated for junior vice commander, Edward Falter of Janesville being elected.

Commander Evans appointed Ralph Peterson and Fred Bauman, both of Racine, respectively, adjutant and quartermaster.

The delegates elected to the national encampment at Boston next September were Col. E. W. Gruetzmacher of Ripon, Thomas Kingston of Madison, John Hartkopf of Milwaukee and George Herzog of Racine.

The department auxiliary elected Mrs. Flora Olson of La Crosse, president. Mrs. Lucy Wolfgram of Milwaukee was elected treasurer and Mrs. James Armstrong and Mrs. Thomas Monlon, both of Milwaukee, were elected delegates to the national encampment.

WEDS GIRL WHOM HE TRIED TO KILL

MILWAUKEE, Wis., July 4.—Lucian Wolski, 18 years of age, took out a license to marry Jadwiga Majkowska, 17 years of age, whom he shot and wounded about two and a half months ago.

Accompanying them was Martha Wolski, a sister of Lucian, who slid his arm when he tried to shoot himself after wounding his sweetheart. The wedding will take place on July 8.

At 2 o'clock on the morning of April 10, Wolski shot the girl in the face at her home, 17 Clarke street. He was arrested and was released on bail. His sweetheart was confined in a hospital for a time, but has now completely recovered.

WRITER EXPELLED FOR PLAGIARISM

MILWAUKEE, Wis., July 4.—Richardson Braunstein, a member from a small town in New York, was expelled from the National American Amateur Press association, charged with plagiarism. Considerable secrecy was maintained about this portion of the proceedings of the second day of the convention.

It was said that Braunstein submitted one of Tennyson's poems, word for word, under the title, "Two Lives," in the contest for the poet laureateship.

BOY SAVES TWO FROM DROWNING

AFTER WORKING HE SUCCEEDS IN PULLING OUT TWO

STRUGGLES UNDER WATER

Is Watched by Crowds on Shore Who Are Powerless to Aid the Drowning Boys

TOMAH, Wis., July 4.—Efforts will be made by Tomah citizens to secure a Carnegie medal for Vere Johnson, the 16 year old son of Dr. H. B. Johnson, who at great risk to himself, saved two boys from drowning at Spring Bank, a summer resort five miles from the city.

While bathing in the lake the two boys, Vandervort and Crocker, by name, ventured beyond their depth and not being able to swim went down in the sight of a large number of people who had become panic stricken and did not render aid to the struggling lads. Young Johnson was at the clubhouse some distance away and hearing the excited cries of the people rushed down to the shore. Taking in the situation, without removing a single garment, he dove into the fifteen feet of water and brought Crocker to the surface and carried the exhausted boy to the bank. He then returned for Vandervort.

As he reached the spot where he had gone down a second time the drowning lad grappled with his rescuer, seizing him by the throat and carrying him down with him into the depths. Here both boys engaged in a stiff wrestle, Johnson finally freeing himself and taking a second hold, he brought Vandervort to the shore.

LETTERS FROM BUND OFFICIALS

Secretary Utermoehl of the Saengerfest has just received a letter from Prof. Theo. Kelbe, director of the Saengerfest, and Prof. Kelbe states that he has about completed his tour over the circuit and that the various societies who will attend the fest have their songs mastered and are in excellent shape. Mr. Kelbe spoke especially of the enthusiasm that is being shown in the various cities and says that from the present indications it will be one of the largest and best in history. Prof. Kelbe in his letter also compliments Professor Oscar Frey of this city on his work in composing the Saengerfest March that has been dedicated to the fest and is now on sale. The march has been highly commended.

President T. G. Behrens of Chicago has written the secretary that he is preparing to make another visit to the city about the 8th of this month when final arrangements for the fest will be taken up. President Behrens has communicated with the various secretaries of the societies suggesting that for a better general appearance in the concerts that all the singers wear dark coats with light vests and light ties. In former years no attention was paid to the costumes of the singers, but considerable comment has been heard over this matter and the suggestion of Pres. Behrens was the result.

Mr. William Luenning, chairman of the finance committee, has announced that the tickets are now being placed on sale and the places will be advertised the first of next week. The season tickets, including the five concerts are being sold at \$3.50 and the tickets may be exchanged for reserved seats that will be more convenient for those wishing to attend. The single tickets will cost from \$1 to \$1.50, and by purchasing a season ticket they may be secured at 70 cents each.

The closing of the membership list for the children's chorus has been postponed for a few days by the director in order to allow more children to join.

JOHNSON REITERATES

WEBSTER CITY, Ia., July 4.—Gov. John A. Johnson of Minnesota, who is in Webster City, confirms the statements made in Denver by his managers that he will not accept the vice presidential nomination on the democratic ticket if offered him. "I positively am not a candidate nor would I accept the nomination for this office," he said when shown the Denver dispatch intimating that his managers were merely laying plans to gain Bryan's support by refusing to combine with the Gray strength on the presidential nomination.

Have a rummage sale of your own

This is serious.

At this season—thoughts of new things are uppermost in one's mind—not in clothing line alone—but throughout the household a general replacement takes place. What becomes of the old stuff?

Piled away in garret or storeroom most likely—and forgotten.

Why, if you would go through the basement or storeroom of the average family today you would find an accumulation of "discards" from years back.

The strange thing is that hundreds of people want the very things for which you have no further use.

It's easy for you to find a customer, too—

Glance at the Want Columns in today's paper—see which want you can supply—then write the party.

But if you can't find a party who can use what you want to sell, make a list of what you have and put it in the Want Columns yourself.

But look at the Want Ads first.

YOUNG MEN are wanted in the United States Navy for all kinds of work on the vessels of the great fleet. Do you want to see more of the world, and at the same time have a steady job, with a chance to save more money than most men save working at home? Life in the Navy is full of opportunities. You have an employer who encourages athletic sports and study, who holds out to every man advancement and more pay as an inducement for faithful service. The first year you get the benefit of training school without extra cost. Your pay begins when you enter the service—board, lodging, medical attendance, all are free. A \$60 uniform outfit, all are free. A trade means better pay to begin with and quicker promotion, even if you know your trade only partially. Musicians have the same advantages. You get a steady job, a chance to become manly and self-controlled. You will be sent to sea, probably on board one of the big new war vessels. Congress has just voted for more men. Application should be made at once. If accepted a position is ready for you. You must be an able-bodied American citizen, over seventeen years old. Tear this want ad out and get some friends to go in with you. Send today for free book, illustrated with pictures in color, which tells all about life in the Navy—the useful things you learn, the voyages, drills, sports, number of working hours and regular half-days off—all you want to know about the wages paid, promotions, etc. Send postal today for it to the Bureau of Navigation, Navy Department, Washington. Or get all the books about the Navy at the Navy Recruiting Station, Post Office Bldg., Minneapolis, Minn.

Ruling.
Blanks, per quire 10
Any materials furnished or work done under the provisions of this section, the price of which is not fixed in the foregoing schedule, the same may be procured by the Secretary of State at rates not to exceed the regular trade prices for such work or material."

Sec. 299, Wis. Stat., 1898.
[This includes numbering insets, embossing, colored or transfer ink, presswork where half-tone cuts or zinc etchings are used, and the binding of old newspapers, magazines, patent office reports, and such like, for which the prices usually charged by the trade will be paid.]

The contract for said printing, binding and ruling will be let to the person who shall bid to execute the same at the greatest per centum of discount from the foregoing established maximum prices, such per centum of discount to be uniform on every item of work or material, and will be subject to the provisions of law. There will be expressly reserved in the contract the right of the legislature to alter, repeal or amend any law now in force or which may hereafter be enacted, directing any particular kind or quantity of printing, and the contract will distinctly set forth that it does not give to the contractor any interest in or control over the official publication of laws, advertisements, proclamations and communications of every nature which may now or hereafter be required by law to be published in a newspaper at the seat of government.

No bid will be considered unless accompanied by all the agreements, guarantees and certificates prescribed by section 301 of the Wisconsin Statutes of 1898. [See form below.] Blank forms of bids, agreements, guarantees and certificates, and all information desired, will be furnished upon application to the Secretary of State.

The right to reject any or all bids is hereby reserved.

The following are the necessary forms for bids, agreements, guarantees and certificates.

I (or we), of _____, in the state of _____, do hereby propose and agree, if this bid shall be accepted, to do at Madison, Wisconsin, promptly, correctly and in a suitable and workmanlike manner, and in accordance with law, all letter-press printing, binding, ruling, blank books (including stock for binding), authorized or required by the legislature for its use, or for the use of the state in all its several departments, for the term of two years from the first day of January, 1909, in accordance with and subject to the provisions of chapter 20 of the Wisconsin Statutes of 1898, and of all other existing statutes of the state relating to public printing, for _____ per centum of discount from the maximum prices established by sec-

LIMIT PATRONS TO ONE DRINK

FITCHBURG, Mass., July 4.—One drink each, and that only to those persons who drink for the sake of refreshment and without a desire for intoxication, is the rule now in effect in all the saloons in this city and nearby towns. The saloon keepers have united with the brewers and police in seeking a reform in the manner of conducting the liquor business.

A small boy, writing a composition on Quakers, wound up by saying that the "Quakers never quarrel, never get into a fight, never claw each other, and never jaw back." He added, "Pa is a Quaker, but I really don't think ma can be."

STEAMBOAT PILOTS DELIGHT IN DISCOMFITING CRAFT

AGAINST NAVIGATION LAWS

Boat Owners Say Small Craft Have Same Fights of Large Steamers; Threaten Retaliation

There is a prospect that the La Crosse Motorboat club will take action at its next meeting to force pilots of steamboats to show more consideration for the smaller craft, and cease their obvious effort to discomfit the launch owners, upon possible pain of revocation of licenses.

It is complained that in a number of instances recently pilots on larger boats when passing launches have "steamed up" deliberately to make trouble for the small boat with their waves, and that in some instances were nearly the means of swamping some of the smaller crafts. Under the laws the small gasoline launch has the same right to navigate the river as the steamboat. The launch is under practically the same regulations, as to lights, whistles, bells and other signals and are accorded the same protection under the law. Under these laws it is necessary for a boat, large or small, overtaking another to use proper caution, and the overtaking boat is responsible if the utmost care and consideration is not followed. When boats are passing head on, the same care must be exercised, and penalties are provided under the law when these rules are not followed.

An instance of the violation of these laws occurred recently at Wisconsin when the pilot of the Frontenac, a fast steamer, had his license revoked for a considerable period of time for running across the bows of a smaller steamboat, which resulted in so seriously shaking and rocking the smaller vessel that a number of her steamships were broken. The authorities declare that the launches are fully protected under these laws and that any specific complaint from a launch owner of a fracture of the law upon the part of a steamboat pilot will be promptly dealt with.

It is stated in some circles that the average steamboat pilot has no love for the gasoline launch, for the reason they all share the opinion that the growth of the gasoline launch popularity has killed the excursion and passenger business on the river. For this reason, it is pointed out they prefer causing trouble for the small boat when passing or whenever possible, to assisting them with the courtesies and consideration demanded by law.

It is probable that there are fifty times the number of passengers carried in the launches than are carried by the steamboats, and for this consideration, if for none other, the importance of the safety of the launches, and the necessity of consideration from big boats' pilots becomes apparent.

MINE CLOSED AFTER 800 YEARS OF USE

WASHINGTON, D. C., July 4.—How would you like to own a silver mine so rich that its vein of precious ore would yield yearly all that you could mine from it for eight hundred years?

It is hard to believe that such a mine of stored wealth ever existed, and yet the Freiberg in Saxony is soon to be permanently shut down after practically an uninterrupted exploitation since 1163.

During these past centuries the rich veins have formed one of the most valuable sources of income of the royal house of Saxony. Since the serious depreciation in the value of silver it has become more and more manifest that it was economically impossible to compete with the richer ores of America. For several years past instead of yielding revenue, the mine has been operated at a loss to the state. For the current year the deficit is \$220,000. On April 28 the Saxon minister of finance announced that the mines would be definitely closed in 1913.

Many of the older miners in the employ of the state will be pensioned. Interesting in this connection, and indicative of the genuinely paternal instinct at the basis of many governmental features in Germany, is this careful provision to prevent suffering to the families and the community as a result of the relentless working of natural economic laws.

LOCAL MARKETS

Because so many of the business houses are closed today on account of it being a national holiday the local market remains about the same as it was yesterday. Langdon and Boyd quotations show a drop in the price of hogs. Burns is beginning to receive peaches, a carload having already come in from Georgia and are now rated at \$4.60 to \$5.00 per crate.

MINNESOTA AND THE NORTHWEST

TAFT AND BRYAN TO COME WEST

WILL DELIVER ADDRESSES AT IOWA AND MINN. STATE FAIRS

G. O. P. CANDIDATE ASSURED

Will be Featured at the State Fairs Over the Northwest—Some Time in August

DES MOINES, Iowa, July 4.—Secretary William H. Taft will deliver an address at the Iowa state fair some time during the fair week of August 20 to 29. Definite arrangements and the final date have not been decided upon, but Governor Cummins, who has had the matter up with Secretary Taft, by correspondence, has been assured that he will come.

Secretary Taft some time ago made arrangements to come west during the months of August and September, and has arranged to make a number of addresses. One of these will be at the Nebraska state fair. Since his nomination there has been some discussion to the effect that he might cancel these dates. He has given assurance that he will not, and this further strengthens the belief that he will speak also at the Iowa state fair.

The action of the Denver convention is being awaited by the state board of agriculture, and if W. J. Bryan is nominated he will in all probability be also invited to speak one day at the state fair.

FIRE FIEND SPRINGS ONE

CROOKSTON, Minn., July 4.—With most of the members of the Crookston fire department at the tournament in Thief River Falls the fire alarm sounded here to call for volunteers at a fire in the saloon occupied by J. J. Molstead on Roberts street. Only three of the regular fire department were in the city and they manipulated the extinguishing machinery before the fire spread. The blaze arose in the midst of the business district and appeared exceedingly dangerous. Mr. Molstead barely escaped death in the flames. The loss is about \$8,000, partly covered with insurance.

MISSING FOR TEN YEARS

FARIBAULT, Minn., July 4.—After searching nearly 10 years for his brother, Samuel Thielbar, who left his home in Dundas in 1897, F. H. Thielbar of that place has appealed to the police of the Pacific coast to assist him in locating the man. Samuel left home without saying where he was going, and never has been heard from since. It is thought that he is somewhere in the northwest. The missing man is about thirty-three years old, five feet and eight inches tall, of heavy build and light complexion.

TWO HELD FOR MAN'S DEATH

SIoux CITY, Iowa, July 4.—Harry Clayton and Al Sheller have been arrested by Chief of Police John Dineen, charged with the murder of Mel Powers, who was shot Monday night. It was at first thought that Powers was killed while acting the part of peacemaker between the two men, who were flourishing pistols, but evidence found by the police is said to indicate that the death of the old riverman was the result of a conspiracy.

SPORTS IMPROVE PUPILS

ANOKA, Minn., July 4.—Supt. Sperry of the Anoka public schools does not find that football and other sports in a harmful degree divert the pupils' attention from their studies. In fact he declares in his annual report just presented to the school board that scholastic work is the higher because of the time given to athletics. He reports 807 pupils entitled to appointment and 1,050 school population, on which basis Anoka has a population of 4,500. It cost \$22.41 per pupil last year for education.

WILL FIGHT WHITE PLAGUE

MANKATO, Minn., July 4.—An anti-tuberculosis society was organized by a number of prominent citizens, with Dr. A. O. Bjelland, president; Rev. Nels Nordgard, vice president, and Prof. C. J. Posey, secretary-treasurer. The society will carry on an educational campaign, and perhaps also employ a visiting nurse to assist the 200 local victims suffering from the disease and instruct them how to care for themselves and render it safe for those living with them.

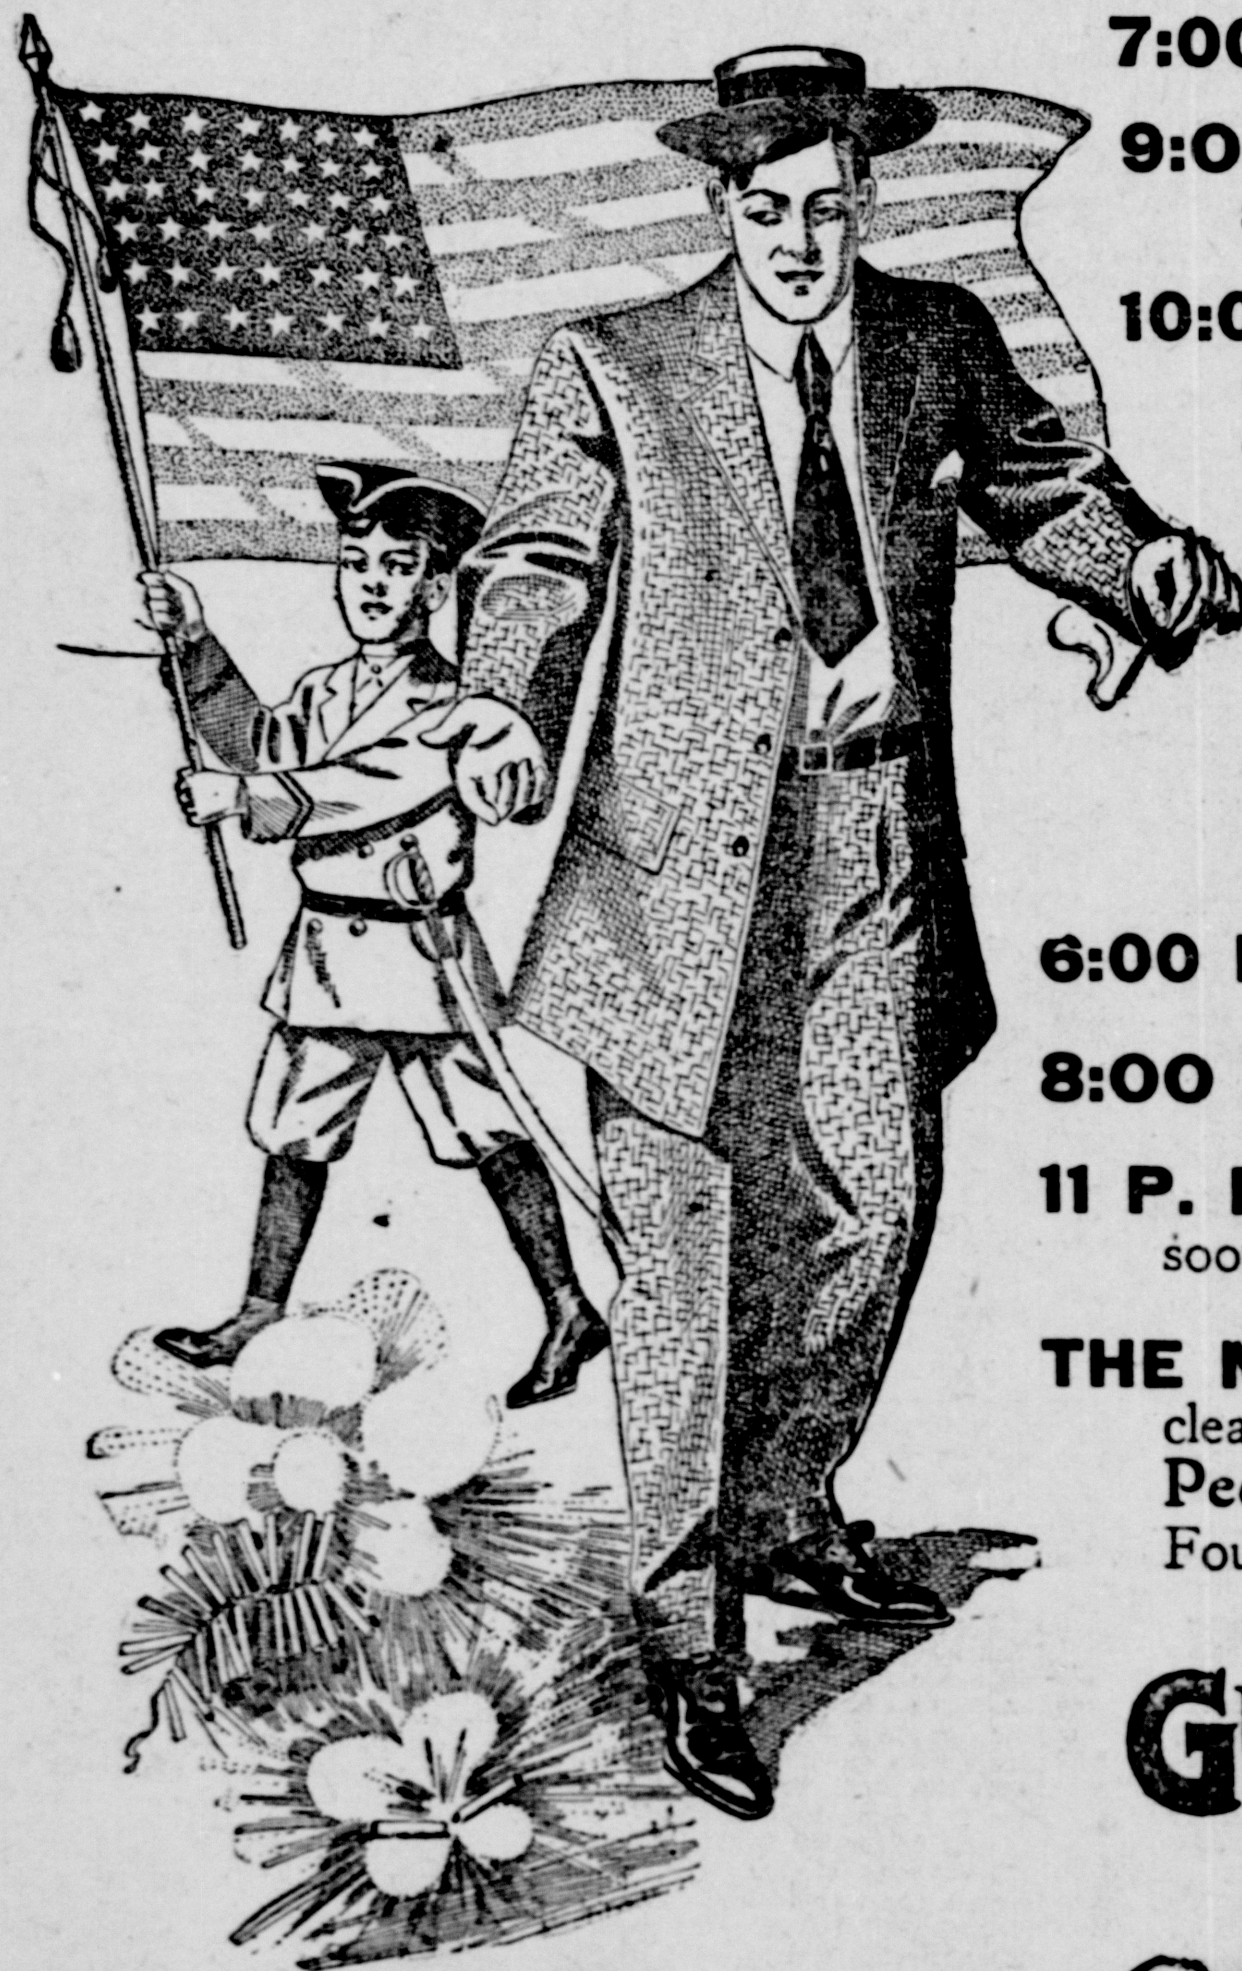

NORTHWEST IN BRIEF

BEMIDJI, Minn.—The members of the Swedish Lutheran congregation of Bemidji have purchased a site for a new church and will at once formulate plans for the erection of a commodious house of worship.

COUDERAY, Wis.—The Couderey Lumber company's large hardwood sawmill at this place shut down this forenoon, finishing the season's cut. After undergoing repairs the mill will be opened again about the first of next year. The owners have a six years' cut of standing timber left to saw, most of which is east of here and has to be hauled here by rail.

WATERLOO, Iowa.—The Waterloo city Y. M. C. A. has inaugurated a twelve days' campaign for the rais-

M'FARLAND MEETS FREDDY WELSH

LOS ANGELES, July 4.—Packey McFarland is matched against Freddy Welsh here today. Both men are in good condition and training hard. Should McFarland win he will be matched against the winner of the Gans-Nelson mill. Both fights are scheduled for today, and great crowds are being provided for at each camp.

BISBEE, N. D., July 5.—Theodore Johnson was seriously burned about the face, head and hands by an explosion of gasoline. He is employed at the Hotel Columbia as a chore boy, and in preparing a washing solution of gasoline and water over a fire in a range the gasoline exploded. He was instantly killed.

BULLFIGHTERS WITH RINGLING SHOW

The funniest clown act ever originated is that of the Toreadores, of Spain, a company of burlesque bullfighters which set all Europe to laughing last winter. A frisky and mischievous mule made up as a bull, and three clever comedians costumed as Toreadores, rush madly about the ring, roll and tumble about, widely paw the air and in the clearest of burlesque go through all the throes of a combat in a Spanish pit.

The act is one of the laughing hits this season with Ringling Brothers' World's Greatest Show, which comes to La Crosse on Tuesday, July 21. It is an absolute novelty in clown acts, keeping the audience in an uproar of merriment.

The Prosit trio, Horton and Linden and the Livingstons, in aerial and horizontal bar travesties are other clever comedians who add much comedy to the program, and Frank Schadel in a burlesque equestrian act with a trained zebra is giving a dash of spicily novelty and fun to one of the dignified menage numbers.

besides those mentioned fifty clowns keep the audience in constant laughter from the start to the finish of the long program. Comedy is no uncertain element of circus entertainment, and there is an ample supply of the right kind always on tap. There are clowns from France, Germany and England, fools and jesters from Oriental courts and an army of American comedians schooled in minstrelsy and pantomime.

In brief, it is a wonderfully organized company of artists that the Ringling Brothers are presenting this season. Acrobats, riders, animal trainers, aerialists, gymnasts and tumblers have been gathered from all corners of the earth and the acts they are offering are surprising in their novelty and variety. Various great animal performances, a spectacular aerial act in which the entire dome is filled with flying forms, a new and different spectacle and the most sensational of all thrillers, a double somersault in mid-air in an automobile, accomplished by a young French woman—are a few of the remarkable features of the bill.

Then there is a new menagerie, the largest in the world, and a new parade—the most elaborate ever presented by a circus.

M'FARLAND-WELSH BATTLE TODAY

LOS ANGELES, Cal., July 4.—Packey McFarland ended his hard training yesterday in preparation for his battle this afternoon with Freddy Welsh. When he finished boxing a few rounds with Trained Kineally the Chicago boy announced he would do no more work.

McFarland is well under weight and appears to be in the best possible condition. Kineally, his trainer; Gilmore, his manager; and Packey himself declare the Chicagoan cannot lose, and they all have placed bets.

Welsh also has eased up in his training. He laughs at the talk that he has trained stale and asserts he will be in the ring at the end of the twenty-fifth round. While the Englishman has many friends, the price has sagged to about 2 to 1, with Packey favorite. Packey's ability as a slugger has convinced many that he will have no difficulty in putting Welsh out. Even at that the heaviest betters in towns are putting their money on Welsh while the rank and file favor the Chicagoan.

Up in San Francisco they are falling over each other trying to get a bet on the Chicago boy. Jimmy Corroth has written that any one wanting to back Welsh can obtain odds on there. Selig, Joe Gans' manager, has also asked for a chance to get some coin down.

ASK NEW TRIAL IN BROKEN NOSE

A motion for a new trial in the case of William Wiesop against John Ritter was overruled by Judge Fruit this afternoon.

Wiesop brought action for damages for a broken nose, received as a result of a fight with Ritter. He was given judgment to the extent of \$400. Judge Daniels, the attorney for the defense, based his motion on the grounds that the penalty was excessive. Attorney W. F. Wolfe argued against the motion.

CIRCUS HAS VARIETY OF MUSIC

Ringling Brothers circus gives employment to no less than five bands, an organist, a Fiji tom-tom orchestra, a minstrel string band, two bugle corps, a drum corps, a calliope player, a chime pianist and a company of Alpine horn musicians. All of these musicians are heard in the parade.
